THE FINANCIAL SITUATION.

Wall Street business only began this week with Wednesday. Neither sentiment nor conditions improved during the holidays. When the Exchange opened the Ford bill looked just as formidable as when it closed the previous week; the anti-trust legislation and agitation in so many States exhibited the same animus against industrial combinations; while a reported worse state of the crops, the higher rates for foreign exchange, some less favorable returns of railroad earnings and a case of yellow fever in the South all tended to encourage forebodings. Under such surroundings, out of which more or less could be extracted to the disadvantage of almost every class of security, what could be more natural than the heavy declines in the market? Evidently the field was ripe for short sales, and the bears held carnival.

But at the same time there was another possible interpretation to the outlook. What we have named were in part surface indications, of temporary influence. Underneath these were industrial conditions of unusual strength. A few short months or even weeks ago sentiment was swayed by the latter wholly, excluding every unfavorable contingency. They gained partial recognition again Friday in the reaction of that day. At present, though, they are in good measure held in suspense. Some of the influences we have mentioned have such a tendency—as for instance the higher rates for foreign exchange, followed as they were on Thursday by the announcement that the National City Bank would ship $1,000,000 gold by the Lucania sailing to-day; the Ford bill with its possibilities of oppressive execution; and the crops subject to so many casualties all through the summer and early fall during the process of making. There are likewise others. The chief among these has arisen out of the fact that in the buoyant period the price of securities was so high that the best bonds and dividend-paying stocks earned little more than 3 per cent on the purchase, and a large class, with an outlook of promise—though the earning power of which was still undemonstrated—followed not far behind. It is no wonder that Europe, preferring home investments paying about the same rate, gave us our best stocks and bonds and some of our reorganized properties in large quantities, while even American capital in considerable amounts found quasi fixed forms of lodgment at London and Berlin. All this transpired too while industrial securities were being multiplied in large numbers and marketed at home. It is not so much a question whether these new issues are good or not and whether those that have been returned to us from foreign holders are still selling at too high a figure. The problem before us is to permanently place those that have been issued or returned, and that effort has for many weeks involved continued liquidation, resulting in successive declines in prices, striking a lower level after each reaction.

It is getting to be quite a serious question, why it is that the cycles of buoyancy in this country must be so extreme and so short. Some claim that they are the necessary belongings of a vigorous youthful nation with large resources; that youth is always discounting the future in an over-sanguine way. No doubt the experience had would in the absence of any other explanation favor such a solution; and yet we think few will be willing to accept as conclusive that interpretation. The fact that we quickly overdo every combination of favorable conditions and then have to suffer a period of retribution for our temerity cannot be denied. This has become obvious through the many reverses of recent years. We need go back no further than 1879 for a series of instructive illustrations. Study, for example, 1881-82; study again 1884-85; then again 1888-89; and again 1892, etc.; finally, study the current developments. No other nation has such a financial history; the course of the malady seems to be a short, feverish excitement, then quickly following this is a corresponding reaction. In Great Britain and elsewhere among the leading nations there are to be sure times of liquidation, but they are much less frequent and very seldom if ever so extrême. We only began our present cycle of buoyancy last autumn and the movement did not get well under way until about six months ago. The financial condition of the country was then more flattering than almost ever before in our history, and still we are now struggling under a severe interruption to our prosperity. There is no industrial reverse or bankruptcy present or pending, and the period of the reaction promises to be a comparatively short one. But long or short, it is real, and has an inciting cause; one too which we believe can be cured.

Some disappointment has been expressed because several returns of railway earnings received this week for the month of April have shown a quite heavy augmentation in expenses, thus wiping out considerable gains in gross receipts. This has been treated as if it were a general condition, and all sorts of arguments have been advanced to account for it, some writers suggesting as a possible explanation that freight rates must have been seriously cut, when, as a matter of fact, rates have not been so well maintained, taking the country as a whole, for years. The truth is, the cases where there have been heavy increases in expenses are very few, comprising not more than a half-dozen companies all told, and in these instances the augmentation has been so very decided as to suggest a special cause in each case to explain it. Moreover, large numbers of roads have revealed precisely the opposite state of things. On the Pennsylvania Railroad the addition to expense accounts has not been so moderate for months. The Louisville & Nashville, with $144,095 increase in gross has added only $26,223 to expenses; the New York Ontario & Western earned $99,294 more gross, with an additional outlay of only $26,490; the Central of Georgia enlarged its operating expenditures only $30,520 while increasing its gross receipts $76,742; the Norfolk & Western, while gaining $72,092 in gross, has actually managed to reduce expenses $9,317, and the Cleveland Cincinnati Chicago & St. Louis has also reduced its expenses. What is surprising is not that operating outlays are growing, but that the addition has thus far (outside of a few special roads) been on the whole so moderate. It is well to remember that a gradual expansion in this particular can hardly be permanently avoided. The roads are doing a much larger volume of business. Besides this, steel rails (where delivered on new contracts) cost more than a short while ago, and many other

items of materials and supplies that enter into the operating accounts are also higher.

While the Stock Exchange markets continue depressed, industrial affairs remain in a satisfactory state and business is large and active. The trade records for the month just past furnish new illustrations of the truth of this statement. We have compiled our tables of bank clearings for May, and they show a ratio of gain over last year almost as large as that in the phenomenal record for the previous month. Taking the country as a whole, the total of the bank exchanges for May 1899 is 8,328 million dollars, against 5,339 millions in May 1898, an expansion of 56 per cent; for April the amount was 8,279 millions, against 4,976 millions, an increase of 66 per cent. Of course the activity of Stock Exchange speculation here in New York accounts very largely for these exceptionally heavy ratios of increase, and for May the volume of business on the Exchange was not quite so large as for April. But even outside of New York, where stock speculation does not count for much in the results, and where also financial transactions do not play the prominent part they do here, the ratio of gain is very large. For the last three months the percentages of addition have been: May, 27·8 per cent; April, 28·2 per cent; March, 26·7 per cent. There was an advantage in May the present year in the fact that there was one more business day (the month having contained only four Sundays against five last year), but on the other hand the increase of 27·8 per cent in that month came on top of 18·9 per cent increase in the same month last year, whereas the 28·2 per cent gain in April followed only 13·3 per cent gain in 1898.

The satisfactory state of trade is also strikingly shown in the steady dwindling of mercantile failures. High prices and a large volume of business naturally diminish the commercial rate of mortality. The monthly record of failures which Col. W. M. Grosvenor prepares for Dun's Review is very instructive just now as indicating how notably favorable the situation has become in this particular. In reviewing the results for April, we pointed out that the failures for that month had been for the amount of only $5,790,096, being the smallest total of any month of any year since the monthly records were begun in 1893. But for May Colonel Grosvenor now finds an aggregate of but $3,820,686, this comparing with a total of $11,130,079 in May 1898, $11,319,389 in 1897 and $12,296,348 in 1896. In number the disasters were only 581, as against 955 in the corresponding month of 1898, 936 in 1897 and 917 in 1896. Colonel Grosvenor says a good many people watch these returns with only languid interest, as if they concerned only the accidents of commerce. But business has two poles, payments and failures to pay. When the proportion of payments is small, it does not matter so much what else is prosperous or promising. But when engagements are large, and are met $99·95½ in every $100 of solvent payments, the conditions existing are not only rare and fine for the present, but full of assurance for the future. It is at such times that men can take large matters in hand with the utmost confidence. We have reached one of those exceptional periods in business, he points out, which scarcely come in twenty years, when the chances of disaster are reduced almost to the vanishing point.

We have referred above to the fact that the Pennsylvania Railroad shows this time only a moderate increase in expenses. The company's statement is all through very favorable. On the lines directly operated east of Pittsburg and Erie there is $303,200 increase in gross and $107,100 increase in net, while on the lines west of Pittsburg and Erie there is $194,600 gain in gross and $162,600 gain in net. For the combined system, therefore, the improvement amounts to $497,800 in gross and to $269,700 in net. Bearing in mind that this follows $820,800 gain in gross and $69,900 gain in net in the same month last year, it is evident that the Pennsylvania is getting its share of the advantages resulting from the revival of business and the buoyancy of the iron trade. In the following we compare the gross and net earnings of the Eastern lines for a series of years past.

Money on call, representing bankers' balances, has loaned at 1½ per cent and at 3 per cent during the week, averaging about 2⅝ per cent. There was no market on Monday or Tuesday. On Wednesday and on Thursday the range was from 2 per cent to 3 per cent, with the bulk of the business at 2½ per cent. On Friday the transactions were at 1½ per cent and 2½ per cent, with the majority at 2¼ per cent. Banks and trust companies quote 3 per cent as the minimum, some of the latter, however, loaning at 2½ per cent. Time money is in plentiful supply, with a good demand for long periods. Quotations are 3 per cent for sixty days to four months and 3½ per cent for five to six months, or even for longer dates, on good mixed Stock Exchange collateral. Loans on a fair admixture of railroad properties and interest-paying listed industrial stocks can be readily made at 4 per cent for four to six months. The offerings of commercial paper are only moderate and some banks report that rarely have they seen so little dry goods paper in the market. The demand is excellent not only from city but from out-of-town buyers, and it has been notably good from the East this week. Rates are 3¼@3¾ per cent for sixty to ninety day endorsed bills receivable, 3½@4 per cent for prime and 4@5 per cent for good four to six months' single names. Some choice single name paper maturing at the end of the year has sold at 3½ per cent. The banks report a little more currency moving in this direction from near-by points; otherwise the movement is not important. Institutions with large correspondence note an inquiry, preliminary to borrowing in the near future, from distant Western points, but as a rule the interior banks, especially in large cities, seem to be well supplied with funds.

The European political situation remains unchanged. The Bank of England minimum rate of discount is unaltered at 3 per cent. The cable reports dis-

counts of sixty to ninety-day bank bills in London 2⅜@2½ per cent. The open market rate at Paris is 2½ per cent and at Berlin and Frankfort it is 3¾@3⅞ per cent. According to our special cable from London the Bank of England gained £423,385 bullion during the week and held £30,140,856 at the close of the week. Our correspondent further advises us that the gain was due to the import of £13,000 from Australia, to receipts of £430,000 *net* from the interior of Great Britain and to the export of £20,000 to various countries.

A sharp advance in foreign exchange on Monday and the strong tone on Wednesday gave some color to reports that gold exports were imminent. There were various estimates regarding the gold-exporting point, but the consensus of opinion seemed to be that gold could not be exported at a profit below 4 89 for demand sterling, and some bankers were inclined to the view that even at that figure the export movement would not be profitable unless, indeed, the price of gold at London and the open market rate of discount should advance under such conditions as to indicate more or less permanency. Both the price of gold and the London discount rate were therefore watched with some degree of interest by dealers in exchange and with some anxiety by those holders of securities who were fearful that gold exports would imperil their interests in the stock market. Suspense was ended on Thursday afternoon when it was announced that the National City Bank would ship $1,000,000 gold by the Lucania sailing to-day (Saturday). The tone of the market grew easier after this announcement, indicating that the urgency of the demand for remittance had at least been partially satisfied. Rates were not quotably lower, however, but on Friday they fell off.

The advance in the exchange market early in the week was due to a variety of causes, chief among which was the limited supply of bills. Part of the demand was distinctly traceable to remittances for rubber and other raw material, contracts for the payment for which were maturing. Bankers report comparatively small offerings of commercial bills, even at the high prices now ruling. There are, however, fairly large offerings of long sterling, which is drawn in expectation of covering with cotton bills later in the season, and it is probable that these offerings will increase in the near future.

Nominal rates for exchange were 4 86 to 4 86½ for sixty day and from 4 88 to 4 88½ for sight on Monday, but on Wednesday and thereafter they were from 4 86½ to 4 87 for the former and from 4 88½ to 4 89 for the latter. Rates for actual business opened on Monday at an advance of half a cent, compared with those on Friday of last week, to 4 85¾@4 86 for long, 4 88@4 88¼ for short and 4 88½@4 88¾ for cables. The tone was strong and it so opened on Wednesday (Tuesday being a holiday), but the inquiry was not so urgent for long and for short as it was for cables. The demand for the latter, in connection with the semi-monthly settlement in London, caused an advance of one-quarter of a cent, to 4 88¾@4 89, but sixty-day and sight remained unchanged. On Thursday the market was easier, though not quotably lower. On Friday the tone was still easier and rates fell off one-quarter of a cent. The following shows daily posted rates for exchange by some of the leading drawers.

CLOSING CHAPTER OF THE DREYFUS CASE.

The earlier stages of the extraordinary "affaire Dreyfus" were characterized in such degree by melodramatic and sensational exhibitions on the part of the chief actors in the scene that the cold, calm and impassive procedure in the final review before the higher court comes as a welcome relief.

Looking back over the shifting phases of this strange imbroglio, it is difficult to suppress the feeling of disgust at the succession of fantastic figures: the "General Staff" on the witness stand in military uniform browbeating court and counsel at the Zola trial; the scoundrel Esterhazy peddling his "confession" from one London newspaper to another; the forger Henry, exposed only through the interposition of foreigners, after deluding his own court-martial and nation with his transparent frauds; the infatuated "anti-Dreyfusards" collecting funds for a monument to celebrate the dead

forger's crime; Drumont, Déroulède and Rochefort, with their fanatical band of agitators raising almost daily uproar against the courts and Government in the Paris streets; the mock court-martial, convened to acquit a guilty man; a President of France virtually forced to resign through his discovery that his subordinates had forged the name of a friendly sovereign; the judge of a higher court tossing aside the ermine, to reappear as a blatant demagogue and agitator; the press of a great city uniting to suppress all news throwing light on the case of an innocent victim—this extraordinary panorama of the last five years has all the aspect of a nightmare as hideous as it was unreal. It is only now, when France is awakening from its troubled dreams, that either the nation or its neighbors can realize what it has escaped. That it has awakened to soberness and sanity it owes first to the instinct of justice and respect for law which no community altogether loses, even in a moment of delirium; next to the courageous self-sacrifice of one man of letters who accepted exile rather than silence, two or three statesmen who chose political ruin when the alternative was acquiescence in a great wrong, and one Paris newspaper which told the truth with a mob at its doors. Finally, it owes its escape to the vigor with which the pressure of enlightened public opinion throughout the world was brought to bear on the Dreyfus controversy.

We do not know any surer proof of the fact that the Dreyfus case has now passed out of the domain of political madness than the absence even of an excited public in the court-room as the re-hearing draws to a close. This week's proceedings of the Court of Cassation are conducted with the calm and dignity appropriate to a high bench of justice. The presentation of the case for the defense is such as should be expected in a nation where personal rights and liberty are respected by government and people. This prompt return to civilized procedure shows, what had been doubted at some junctures of the past few years, that the established forms of justice in France are adequate for the protection of its citizens. No system of government or of legal procedure can provide such protection for a day unless it is intelligently administered. The Court of Assizes into whose hands Zola fell a year ago is part of the same judicial system to which the Court of Cassation belongs. The extraordinary difference between the two episodes reflects, we think, quite as much a change in the public temper as a change in the methods of the courts.

We cannot help thinking, after the experiences of the past few months, that the French Government and French people will be the stronger for having passed through this strange ordeal. An episode of this sort, judged in the light of its final results, is the strongest possible test of the really dominant influences in a community. It is not strange that foreign nations should have begun to distrust the permanency of French institutions when the Dreyfus imbroglio was in its worst stage. The French people themselves were beginning to express such distrust. At present the intimations of the foreign newspapers a year ago, that a new "St. Bartholomew massacre" of the Jews in Paris was possible, read like the effusions of an excited imagination; yet it must not be forgotten that precisely such threats were openly made in Paris. Some of the English papers even this year have carried to an absurd extreme their predictions of an impending French revolution; yet the fanatics in Paris were laying plans for precisely such a *coup d'etat*.

The important point to notice is that as soon as the French people were brought face to face with a real crisis, where prompt decision was imperative, public opinion turned out to be sound. The "St. Bartholomew" rumor was quickly traced down to the wretched Esterhazy and the half-crazy scribbler who has been on trial this week for attempting to incite the army. The people took no interest in the rumor. The exiled pretender to the French throne appeared on the frontier, with a bombastic appeal to the passions of the hour, and was laughed at for his pains. On the very heels of the published prediction that France was on the verge of the abyss of anarchy and revolution, the opportunity most of all to be desired by a strong revolutionary party arose, yet Loubet was elected in the place of Faure as quietly and regularly as any predecessor in the presidency had been chosen. Not once, but a score of times, despatches have confidently predicted that, when this or that decision should be made by courts or ministry, there would be a "popular outbreak" in Paris. Yet there has been no popular outbreak; the demonstrations at such times as the Zola trial, the funeral of M. Faure, and the decision of the higher court, testifying by their very absurdity to the total lack of popular sympathy with the inciters of disorder.

It may perhaps be suggested that the people were kept down by the careful preparations of the War Office and the presence of the military. But even supposing this to have been the true explanation, elements of the greatest possible reassurance might be found in that very fact. Not least among the pessimistic predictions of the period have been those which assumed that the army would rally to the support of the cabal in the General Staff and establish a virtual dictatorship. But the assertion of the anti-Dreyfus party that "l'armée, c'est la France," has turned out to be true in a rather different sense from that intended by its authors. It is obvious enough that, under the existing military system the army really represents a good part of the active citizenship of France. But it very soon appeared, in the progress of this remarkable case, that the significance of a citizen soldiery as an institution lay in the fact that the interests of France as a nation could readily tip the scales against the imagined interests of the army as an organization. We cannot doubt that if army opinion had stood solidly behind the Merciers and De Boisdeffres and Pellieux and Gonses, there would at least have been some formidable outbreak on the part of the military cabal.

But there has been no sign of such a thing; no one has heard of a military "ovation" to these officers, even at the moment of their triumph. It may at least be imagined, from such facts, that the French army is sound in its general character, precisely as the citizenship of France is sound. If France itself were not convinced of this, it does not seem to us that the constant tributes to the army by the public would be possible. The enthusiastic and excited greeting of the French people to Major Marchand on his return from Africa was obviously the more spontaneous in that it gave recognition to an army officer whose personal honor was untarnished, and who had really achieved something for his country without resorting to the intrigue of the War Office. There are unquestionably in the

army other officers of equal capacity and integrity. It is only fair for critics of French institutions to remember that if the army produced a Henry and an Esterhazy, it also produced a Picquart.

This view of the case appears to us to be a matter of high importance; for if the army were honeycombed with imbecility and treason, as the Secret Service and the General Staff have seemed to be, there would be little hope for the maintenance of France's defensive organization. It would seem that the course of justice can hardly stop with the return of Captain Dreyfus, the release and reinstatement of Picquart and the exoneration of Zola. There must be penalty as well as indemnity in a matter of this sort, and the arrest of Colonel Du Paty de Clam last Thursday, the chief agent if not the prime mover in this military conspiracy, indicates that the Government is mindful of such secondary duties. The further procedure of the law in this regard may provide another test for the firmness of the present French Government and the intelligence of its people. For ourselves, we do not anticipate serious trouble in the matter. The sentiment of the French people is bound to react with a violence proportioned to its earlier movement under the lead of the conspirators. Now that the people have learned the truth, we suspect that the time is not far off when the Government will have to exert itself quite as much to protect the culprits from excessive punishment as it might have to labor, under other circumstances, in bringing them to justice.

ADVANTAGES AND DISADVANTAGES OF INDUSTRIAL COMBINATIONS.

Mr. Charles R. Flint of this city has delivered an excellent discourse on the subject of industrial combinations. The occasion of the speech was the dinner given last week in his honor at the Union Club in Boston by Mr. William M. Wood of that city, when Mr. Flint was asked to speak on the subject of "Industrials." Mr. Flint is not only broad-minded and conservative, but has a wide practical knowledge of the workings and nature of these creations of modern times, he having been active in the formation of several such combinations, and being prominently identified at present with a number of them. No one was better fitted to deal with the subject in a rational and intelligent way.

Mr. Flint well says that the organization of large industrial corporations is the most prominent feature of the present revival of prosperity. The time has gone by, he contends, when it is necessary to argue as to the right of large aggregations of capital for the purpose of industrial development to exist. Every great movement in the world's progress has been opposed. Machinery has done more to benefit labor than all the acts of reformers and governments, yet originally the class most benefited endeavored to prevent its use. But while combinations of wealth, of judgment, of experience, and of executive ability, are now generally recognized as a natural evolution in industrial development, all reflective men appreciate that, as mistakes have been made in the development of other great institutions, in the State and even in the Church, so mistakes have been and will be made in the organization and management of industrial enterprises. Accordingly he thinks it important at the present time, when so many industrial corporations are being organized, to compare views with the purpose of minimizing mistakes.

Mr. Flint finds a favorable feature in the fact that (to quote his exact words) "the capitalizations of most of the industrial corporations which have recently been formed have been clearly defined and have been based principally upon the earnings for the past five years, during the greater part of which time 'America has been wearing her old clothes.'" We do not understand Mr. Flint to mean by this that, taking the low earnings of the last five years as a basis, the capitalization of the new companies has been kept at a point where these small earnings will suffice to pay a full return on it. If that were the meaning, we should hardly be prepared to endorse the statement. For there can be no doubt that some of the new concerns have been capitalized on an inflated basis, and even under the most propitious circumstances they will find it difficult to earn a return on this capital, not to speak of the restricted profits of the years of depression. The thought which Mr. Flint obviously had in mind was that, having only the contracted earnings of recent lean years to work on, over-capitalization has been kept within much narrower bounds than would otherwise have been the case; accordingly, that the possibility of danger and disaster is correspondingly lessened.

The caution he utters against banking on expectations of the permanence of the existing large earnings is very timely. He says that in his judgment the danger point will be reached when new capitalization is created based upon the abnormally large earnings of the prevailing period of prosperity, and an undue advance in the quotations of outstanding securities takes place in consequence of unexpectedly favorable statements of profits. Business is active today and promises to be more so to-morrow. Profits are, and for the near future must continue to be, large. Add to this the advantages which will accrue from economies and other benefits secured by consolidation, and statements of profits will be rendered which will have a tendency, he thinks, to turn men's heads. This is certainly a danger to be guarded against, and Mr. Flint suggests some useful precautions. He says wise managers of large industrial corporations will charge off substantial amounts for depreciation and increase the surplus out of the unusual profits resulting from the augmented demand and the decreased cost of production. Industrial corporations, properly organized and well managed, have an inevitable and a necessary advantage in the world's markets. But there will ultimately be a reaction from the present period of unusual business activity. The vital point is to see that industrial corporations are organized and managed upon sound business principles, and do not rush into over-production, and thus help create the conditions of inflation which result in reaction and panic. What should be preached, Mr. Flint says, is the gospel of steadiness, and the new corporations are large enough and controllable enough, he declares, to make for steadiness in a way that would have been impossible under the old conditions.

In this last circumstance, that is in the fact that more ready control is exercised over production, there is, according to the speaker, a considerable element of strength. The severest test of a business system is in times of adversity. But given concentrated control there is the possibility of modifying if not

eliminating some of the most serious features of it as experienced in the past. Under the conditions which prevailed before these large aggregations of wealth and intelligence came into being, each manufacturer in times of depression rushed in to secure as much as possible of the reduced business; the result was demoralization. Under industrial combination, however, each concern obtains its fair share of the reduced volume of business at fair prices, and the contraction of business is conducted with the orderliness of a retreat of a well-disciplined army. It is pointed out that nothing in the past has more demoralized industries than overproduction in periods of prosperity and the scramble for a market in times of adversity, resulting in the cutting of prices to such an extent as to necessitate the reduction of wages and the manufacture of inferior—one might say counterfeit—goods. Such competition instead of being the life of trade is the death of trade, resulting in failures among jobbers, manufacturers and suppliers of raw material, and even affecting adversely the bankers.

Industrial combinations are also necessary, Mr. Flint argues, in order to enable us to maintain our hold on the export trade. He asserts that over 90 per cent of our exports of manufactured goods is being produced by such organizations; and the only way in which the United States can extend and hold its position in the world's markets for manufactured goods is by securing the advantages of highly-developed special machinery, which is only possible through centralized manufacture and aggregated capital. Subsidy seekers claim, says Mr. Flint, that "trade follows the flag;" merchants know that trade follows the price and the flag follows the trade. The wars of to-day are industrial wars; wealth is secured by production instead of by plunder; diplomats devote most of their time to studying trade conditions for the benefit of their home industries, and the most valuable treaties are those of reciprocity and commerce. Not only are we dependent for our position in the world's markets upon the existence of large industrial corporations, but the wages of the American workmen can be sustained only by our keeping in the lead in the development of labor-saving machinery through centralized manufacture. To-day the productive capacity of the labor-saving machinery of the United States more than equals that of 400,000,000 of people not using labor-saving devices.

It will thus be seen that Mr. Flint is a careful student as well as a practical man of affairs. There can be no doubt that much anxiety has latterly been felt owing to the rapid multiplication of these industrial combinations, their tendency to create fictitious capitalization, and the reckless speculation which has been engendered in their securities. Mr. Flint touches on the other side of the picture and presents to view some of the manifest advantages and benefits resulting from the unification of interests. Moreover, the words of warning and precaution which he utters should, if heeded, remove the danger of serious disaster and collapse a few years hence when perchance business prosperity shall give place to business adversity. What Mr. Flint says regarding the improvement in the condition of the working classes as the result of the introduction of labor-saving implements and devices, which industrial combinations so strongly facilitate, is worth quoting entire: "Man power, under these conditions, has given place to machine power, and the man, instead of being a machine, a mere hand worker, daily becomes more and more a brain worker and more and more a man. This, more than any other single fact, accounts for the increased prosperity of our people, their larger leisure, larger liberty, and larger enjoyment of life. Compare their condition with that which prevailed before the aggregation of wealth and intelligence in the development of industries, when wealth was obtained by conquest, not by production; when the masses had meat but once a week; when their houses were without chimneys and without windows; when their clothing and surroundings were filthy; when the death rate was double what it is to-day—and you go back to a time when the nobility knew less of the world than the laboring man of to-day; when the present necessities of the masses were luxuries only for the rich; and you realize that the emancipation proclamations were written by Watt and Arkwright, Stephenson and Fulton, Franklin and Morse, Bessemer, and the great organizers who have applied their discoveries and distributed the benefits of their inventions to the whole world.'

THE MICHIGAN CONSOLIDATION.

The proposed union of the Flint & Pere Marquette RR., the Chicago & West Michigan and the Detroit Grand Rapids & Western illustrates anew the tendency towards the consolidation of railroad properties in this country and the gradual absorption or yielding up of the identity of the smaller roads. It also shows how, under the stress of necessity, this action is being forced step by step; for we may assume that as far as the two roads last mentioned, namely the Chicago & West Michigan and the Detroit Grand Rapids & Western, are concerned, some such merger was inevitable if the interests of the security holders were to be a controlling consideration.

Of the three roads to be combined, the Flint & Pere Marquette is decidedly the strongest. This is so not only because it is larger in point of mileage, but also because it earns nearly as much, both gross and net, as the other two combined. Furthermore, it established a much better record for itself during the recent years of depression. The personnel of the Flint board of directors comprises such strong and well-known names as George Coppell, Oliver W. Mink and Wm. W. Crapo and others of like character. The Chicago & West Michigan and the Detroit Grand Rapids & Western have long been controlled by identical people, and are known as the Thayer-Merriam roads, because Mr. Charles Merriam and Mr. E. V. R. Thayer have been the guiding spirits in their affairs.

The Thayer-Merriam roads have had a hard time of it in the peculiar situation of affairs which has existed in Michigan in recent years. Formerly enjoying a high reputation and ranking as dividend payers, their course grew more and more unfavorable with the lapse of time. In the case of the Chicago & West Michigan, bondholders were obliged to forego a part of their cash interest for several successive years; and it is only recently that full interest in cash has been resumed. The Detroit Grand Rapids & Western, or rather the Detroit Lansing & Northern which was its former name, did even worse. It went to default and was foreclosed, the common stock of the Lansing & Northern being entirely wiped out. The fault was in the conditions, not in the management, and most of

the other Michigan roads suffered from the same circumstances, even if in less degree.

An important change has been going on during the last decade in the traffic of the Michigan roads. Formerly the lumber traffic was their principal source of revenue. But latterly the supply of timber has been steadily falling off. The growth in other lines of local traffic kept up, but this was not sufficient to counterbalance the loss in lumber. The development of business depression in 1893 and succeeding years tended to accentuate this situation. Furthermore, owing to the building of new mileage there are more lines among which to divide what business there is. The Thayer-Merriam people recognized the necessity for developing some new sources of traffic as far as both their roads are concerned, and the latter part of 1897 they established a car ferry line across Lake Michigan, running from Muskegon, Mich., to Milwaukee, Wis. This move was made with the view to securing for the roads a share of the through traffic to and from the Northwest for which, (owing to the location of the roads and the limitations to which they are subjected by the connecting systems) they were previously unable to compete. The entrance into the Northwest, thus gained through the car ferry, opened up a field from which a considerable tonnage in grain, flour and other products can be drawn, besides which some return tonnage from the East in the shape of structural iron, merchandise, etc., is secured.

The Flint & Pere Marquette about the same time also undertook to develop a water route of this kind, running a car ferry from Ludington and Manistee to Milwaukee and Manitowoc, &c. The union of this road with the Merriam roads ought, therefore, to place the consolidated system in excellent position for commanding and developing this class of traffic. It should also strengthen the properties locally.

The system will be quite an extensive one. The Flint & Pere Marquette comprises 704 miles, the Chicago & West Michigan 614 miles and the Detroit Grand Rapids & Western 451 miles, making together over 1,750 miles. If we add the mileage in spurs on the Flint road, the total will fall not far short of two thousand miles. The system, moreover, seems compact and homogeneous. With its western rail termini on Lake Michigan, at Manistee, Ludington, Pentwater, Muskegon and Chicago, and eastern termini at Port Huron, Detroit, and Toledo, it thoroughly gridirons Central Michigan, and has besides a line extending almost to the extreme northern end of the Southern Peninsula of Michigan. The combined system will have, roughly, 25½ million dollars of funded debt, this being the aggregate amount of the outstanding bonds and equipment obligations of the existing companies, which bonds and obligations are not to be disturbed for the present. The aggregate of the stock issues of the constituent companies, common and preferred, now is $22,846,500. The merger provides for the issue of $28,000,000 of stock, $12,000,000 being preferred and $16,000,000 common; but $1,837,800 of preferred and $1,854,450 of common are to be reserved for future requirements.

All three of the constituent companies have been showing improved results latterly under the revival in business activity and the new connections opened. The Flint in February 1899 paid one per cent on its $6,342,000 of preferred stock, after a lapse of some years; the Chicago & West Michigan is again meeting all its coupons in full in cash, and the Detroit Grand Rapids & Western, after its drastic reorganization, paid in March 1899 a first dividend of 3 per cent on the new issue of preferred stock. The earnings of the three companies in the late calendar year are shown in the following.

Calendar year 1898.	*Gross earnings.*	*Operat'g expenses and taxes.*	*Net earnings.*
Flint & Pere Marquette....	$3,063,209	$2,279,029 (74%)	$784,180
Chicago & West Michigan..	1,983,350	1,548,177 (78%)	435,173
Detroit Gr. Rapids & West.	1,538,688	1,170,585 (76%)	368,103
	$6,585,247	$4,997,791	$1,587,456

It will be observed that the three companies combined earned $6,585,247 gross in 1898 and $1,587,456 net. The ratio of expenses to earnings was high for all the lines, but especially so for the Merriam roads, it costing 78 per cent to operate the Chicago & West Michigan. Under the consolidated management there will doubtless be some saving in this particular.

AIR BRAKE POWER ON LARGE CARS.

The use of freight cars with a loading capacity of fifty and fifty-five tons, of which the number in service is constantly growing, has already introduced a number of problems of operation as well as of constructional details. So long as solid trains of the 100,000-pound cars are made up, the train handling questions are not prominent or so pressing as where the characteristics of the traffic do not admit of this plan being strictly adhered to. These very large cars will find their chief use, for the present at least, in special traffic where they can be operated in entire trains; but with the gradual additions to their number now going on, this condition cannot last long, and they must be increasingly used with smaller cars. This has already happened often enough to bring forward several problems, of which perhaps the question of brake applications is the most important. The brake apparatus is now perfectly adjusted to 40,000-lb. and 60,000-lb. cars, and engine and train men have been carefully schooled to get the best results on such cars.

The braking force which will safely and properly handle a train made up entirely of 30 and 40-ton cars will not be safe for a train made up of these and 50-ton cars. The braking power for freight trains is practically everywhere accepted as 70 per cent of the light-weight of the cars; and there has been no need to change this rule with the increase of car capacity from 40,000 lbs. to 60,000 lbs., now the standard size built. With the further increase to 100,000 lbs. the old rule as to braking force becomes inadequate. The dead-weight of a 20-ton car is about 20,000 lbs. and of a 30-ton car, 29,000 lbs. Now, allowing 70 per cent of the light-weight of these cars as the maximum braking power to be used, would make the braking power of the smaller car 25 per cent of its total loaded weight, while for the 30-ton car practically the same ratio is maintained, the actual figure being 23 per cent of the total. So far, then, as braking power is concerned, the same rule is as applicable to the 60,000-lb. car as to a 40,000-lb. car. With 50-ton cars a different state of affairs exists. The dead-weight of such a car may be taken as about 23 per cent of the total weight, against about 35½ per cent in the smaller cars. The bearing of this saving in the proportion of dead-weight to the total weight of the car has an obvious effect in reducing the ratio of braking force available for these cars, as now calculated.

While, as we have pointed out, the rule for a braking power equal to 70 per cent of the light-weight of the car applies equally well to 20 and 30-ton cars, it gives a braking force of only 16 per cent of the loaded weight of a 100,000-lb. car, instead of about 25 per cent. This reduces the ratio to an inadequate and unsafe figure. Where the 50-ton cars are run in entire trains the braking force is easily adjusted, but when placed in trains with smaller cars a uniform air pressure is necessary, and this must be governed by the safe allowable braking force for the 30 ton cars; otherwise wheels would be skidded, the train stopped on the road, the cars damaged, and various inconveniences brought about. But a car or train is not safely operated with a braking pressure of only 16 per cent. The trouble has been gotten over on some roads by increasing the air-brake reservoir pressure and then cutting out the brake on the empty cars in the train, so that in stopping they are applied only on the loaded cars. In other instances two pressure regulators are provided, one set at 70 and the other at 100 lbs. to the square inch. With a loaded train the latter pressure is maintained, but when running with a train of empty cars, the 100-lb. regulator is cut out by turning a cock, so that the pressure of the reservoir and in the train pipes is governed by the low pressure regulator. Where traffic is all one way this method may serve well enough, but it is hardly applicable to general traffic, where trains are made up of empty and loaded cars going in both directions.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JUNE 1.

The marketing of cotton during May has been very free for so late in the season, and exceeding in volume, as did April, the result for the similar period in any previous year. There has come into sight during the month 315,959 bales, against 217,161 bales in May of 1898 and 183,218 bales in 1897. The aggregate amount of the crop of 1898-99 now visible is 10,697,045 bales, against 10,659,341 bales on June 1 1898. Spinners' takings have been greater during the month than in 1898, and their aggregate takings for the eight months show a gain over the same period of last year of 3,249 bales.

OVERLAND MOVEMENT TO JUNE 1.

The *gross* movement overland in May has been 91,294 bales, which compares with 80,970 bales last year and 51,382 bales in 1897. The excess over a year ago in the total for the season to date is now 167,779 bales, and contrasted with 1896-97 the increase is 683,589 bales. The *net* for the month has reached 45,879 bales, or a gain over 1898 of 3,963 bales, the total then being 41,916 bales. In 1897 the net was 37,157 bales. The aggregate for the eight months records an increase over last year of 72,633 bales.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The net receipts of cotton at the outports have been heavier than in the same month of 1898, the total for 1899 having been 230,180 bales, whereas last year it was only 172,245 bales. The aggregate for the eight months is 282,929 bales less than that of last year and 1,547,327 bales in excess of 1896-97. The exports to foreign ports have been less free than in May of last year, the shipments for the month this year being but 312,478 bales, against 378,755 bales in 1898 and 273,568 bales in 1897. For the season to date the total exports are 283,041 bales below those for 1897-98 and exhibit an excess of 1,057,244 bales over 1896-97.

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1 this year and the two previous years, is as follows:

	1898-99	1897-98.	1896-97.
Receipts at the ports to June 1 ....bales.	8,177,110	8,460,039	6,629,783
Net shipments overland during same time	1,243,935	1,171,302	846,463
Total receipts ....bales	9,421,045	9,631,341	7,476,246
Southern consumption since September 1	1,016,000	856,000	766,000
Total to June 1 ....bales.	10437045	10487341	8,242,246

The amount of cotton marketed since September 1 in 1898-99 is thus seen to be 50,296 bales less than in 1897-98 and 2,194,799 bales more than for 1896-97. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to May 31, 1899, as above ....bales.			10,437,045
Stock on hand commencement of year (Sept. 1 1898)—			
At Northern ports	61,054		
At Southern ports	114,952 —	176,006	
At Northern interior markets		10,266 —	186,272
Total supply to May 31, 1899			10,623,317

Of this supply there has been exported to foreign ports since Sept. 1, 1898.	6,808,040		
Less foreign cotton included ....bales.	71,897	-6,736,143	
Sent to Canada direct from West		89,041	
Burnt North and South		727	
Stock on hand end of month (May 31, 1899)—			
At Northern ports	218,097		
At Southern ports	467,429	— 685,526	
At Northern interior markets		9,917	-7,521,354
Total takings by spinners since Sept. 1, 1898			3,101,963
Taken by Southern spinners			1,016,000
Taken by Northern spinners since September 1, 1898			2,085,963
Taken by Northern spinners same time in 1897-98.			2,082,714
Increase in takings by Northern spinners this year..bales.			3,249

The above indicates that Northern spinners had up to May 31 taken 2,085,963 bales, an increase over the corresponding period of 1897-98 of 3,249 bales and an excess over the same time of 1896-97 of 491,866 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on June 1 compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns less stock held by them at the beginning of the season. In this manner we find the result for the three years on June 1 to be as follows:

	1898-99	1897-98	1896-97
Total marketed, as above....bales.	10,437,045	10,487,341	8,242,246
Interior stocks in excess of Sept. 1.	260,000	172,000	*21,000
Total in sight.....bales.	10,697,045	10,659,341	8,221,246

* Less than Sept. 1.

This indicates that the movement up to June 1 of the present year is 37,704 bales more than in 1897-98 and 2,475,799 bales greater than in 1896-97.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

* Including Florida

It will be noticed that the movement up to May 31 shows an increase in the average weight as compared with the same period of last year, the average this year being 510·47 lbs. per bale, against 506·88 lbs. per bale for the same time in 1897-98 and 502·79 lbs. in 1896-97.

DRY GOODS TRADE IN MAY.

The most important event of the month was the sale on May 6 of 1,250,000 pieces of print cloths, on the basis of 2¾c. for regular 64 squares, to a syndicate of printers and Fall River manufacturers guaranteeing to maintain that price up to October 1. This transaction had a good general influence over the cotton goods situation. In brown and bleached cottons the sales for the month have been on a liberal scale. In the former there have been occasional advances of ⅛c. and in the latter a general rise of ¼c. to ½c. per yard. Prints have also advanced ¼c. in a number of staple lines. Production has been on an unusually large scale in heavy brown cottons and grey goods, but the demand has been sufficient to keep the market short of ready supplies and well sold ahead. Buying for export has been good for distant shipments in brown sheetings at full current prices.

* Sale at the Stock Exchange.

—The National Bank of Commerce of New York appears to be passing into new control. Since Mr. Sherman's resignation was tendered, to take effect July 1, as announced in this column some weeks since, there has been much interest manifested in banking circles regarding the appointment of his successor. The capital is large—$5,000,000; indeed, with the single exception of the American Exchange National Bank, which has the same capital, it is the largest in the country. The surplus of the Commerce is $3,686,500, while that of the American Exchange is $2,673,921. Therefore, including capital and surplus, the Commerce stands first among the banking institutions in the United States. It has had a long and honorable record; it has been well and

conservatively managed, and it is a bank which one would naturally conclude would easily command the services of the highest financial talent in the country. Hence the interest which is felt concerning the new incumbent of the Presidency. It is rumored that the managers have been seeking for some man of superior financial ability and national reputation to take the position. It is also rumored that the executive staff of the bank will be increased by the election of an Active Vice-President. Should this rumor prove true there will be two positions to be filled on the retirement of Mr. Sherman. It is essential that the Active Vice-President shall be of decided executive ability. Indeed, he should be a man who has had such experience in banking as to demonstrate beyond question his fitness for the position. Such men are presumably already holding places in banking institutions where their services are appreciated, and therefore it may be difficult to induce them to make a change, even such a tempting change as the Active Vice-Presidency of the National Bank of Commerce offers.

The large capital and surplus of the Commerce doubtless would be regarded as an obstacle rather than an advantage by those to whom the offer of the position of President and Acting Vice-President have been made. When, years ago, the banking business was greatly profitable by reason of high rates of interest, moderate taxes and ordinary competition, large capitals were not detrimental but advantageous. Now, however, when rates of interest under normal conditions are low, and when taxes are high and increasing almost year by year under adverse legislation, large capitals and surplus are likely to hinder the successful operation of banking institutions unless the business can be increased so as to give full and constantly active employment to their resources. Such considerations as these doubtless have much weight with those whose services are being sought by the management of the Bank of Commerce. Should, however, the managers be able to give assurances of a prospective increase of business sufficient in volume and of such a permanent character as practically to guarantee success with the existing capital and surplus, the objection above noted would doubtless be overruled, and there would probably be little difficulty in obtaining the services of men of a high degree of talent and of superior executive ability for the positions of President and Active Vice-President.

It is reported that, with a view to the more or less permanent increase of the business of the Bank of Commerce, there have been admitted to the board of directors three representatives of the Mutual Life Insurance Company. The importance this movement has lies in the presumption that the bank will thereby secure a large share of the business resulting from the varied and extensive operations of the insurance company. Assuming that to be true, the new officers of the bank would have little reason to question their ability to maintain its prestige as one of the foremost banks of the country.

—Important changes in the management of the North American Trust Company are announced. Col. W. L. Trenholm, formerly Comptroller of the Currency, has retired from the Presidency of the company and been succeeded by Alvah Trowbridge; and Charlton T. Lewis has been elected a director to fill the vacancy caused by the resignation of Adlai E. Stevenson. It is understood that other changes will soon be made in the board of directors and also in the Vice-Presidents, representatives of the new parties in control of the company, who it is rumored are Messrs. Whitney and Ryan, displacing some of the present incumbents. It has been decided to increase the capital from $1,000,000 to $2,000,000, and the surplus from $800,000 to $1,000,000. The success of the company since its organization has been largely due to the efforts of Col. Trenholm, and his resignation elicited expressions of regret from every member of the board. The directors who have served with Col. Trenholm are John G. Carlisle, ex-Secretary of the Treasury; Roland R. Conklin and Samuel M. Jarvis, who are also Vice-Presidents; C. W. Drake, Treasurer of the Rio Grande Western Railroad Co. and A. Marcus, Treasurer of the Oregon Railroad & Navigation Co. and Gen. Wager Swayne.

—J. Frederick Sweesy, formerly Cashier of the Third National Bank (in liquidation), has been appointed Assistant Cashier of the National Bank of North America. Henry Chapin, Jr., the Cashier of the bank, now has two assistants, Col. Heman Dowd and Mr. Sweesy, as above noted, and, therefore it is felt that there is really no necessity for the services of a Vice-President to fill the vacancy caused by the resignation of Alvah Trowbridge. William F. Havemeyer is the remaining Vice President. It was recently announced in this column that a proposition had been made to the stockholders to increase the par of the stock of the bank from $70 to $100 by the declaration of a cash dividend of $30 per share out of undivided profits, thereby increasing the capital from $700,000 to $1,000,000. The proposition will undoubtedly be acceded to at the called meeting of the stockholders June 14, for holders of three-fourths of the stock have already expressed their intention of voting for the measure.

—Mr. Herbert Coppell, a son of Mr. George Coppell, was, on June first, admitted to membership in the firm of Maitland, Coppell & Co.

—The plan for the establishment of a Sub-Clearing House in Boston for the collection of country checks has been revived since the scheme was first considered, and a committee has been appointed, of which Mr. Francis B. Sears of the Third National Bank of Boston is Chairman, to arrange the details of the plan. It is proposed to limit the operation of the system to the State of Massachusetts for the present, and the committee will endeavor to secure the co-operation of country banks by offering liberal inducements.

—The Bank of Commerce of Louisville, Ky., is reported to have made a proposition to the stockholders to reduce the capital of $800,000 to $400,000 by declaring a 50 per cent dividend out of the surplus of the bank, retiring a similar amount of stock. The State and local taxes are very burdensome, amounting to about 2½ per cent, and this is the principal reason for reducing the capital.

—The banking firm of Morton, Bliss & Co. will shortly dissolve as a firm for the purpose of transferring the business to an incorporation. The firm consists of ex-Vice-President and ex-Governor Levi P. Morton, George T. Bliss, Richard J. Cross, William M. Grinnell and W. R. Cross. The details of the plan for incorporation are being arranged, and it is probable that nearly all the partners will be stockholders in the new corporation.

—The vacancy in the position of National Bank Examiner, caused by the resignation of Mr. William H. Kimball, who, as previously announced in this column, has accepted the office of Active Vice-President of the Seventh National Bank, has not yet been filled. The position is a very desirable one, and there appears to be considerable competition for it among those having the requisite knowledge of the banking business. Comptroller Dawes is, however, apparently desirous of securing the best available talent for the place, and as there seems to be no special urgency, the selection may be delayed for a few weeks. It is thought probable, however that the appointment will be made before the close of the fiscal year. The compensation of the Bank Examiner is regulated by the national banking law, and in this city it will net about $7,000 per annum—the official paying the expenses of the office out of the receipts.

—Mr. George Blumenthal, of the well-known banking firm of Lazard Freres, returned a few days ago from a brief trip to Europe, much benefited by his visit.

—Mr. Albert H. Wiggin, who, as was recently announced in this column, was elected one of the Vice Presidents of the National Park Bank, assumed the duties of his new position on Monday.

—The new branch bank of the Hamilton Bank, on Amsterdam Avenue between One hundred and forty-fourth and One hundred and forty-fifth streets, is being fitted up for banking purposes in an attractive manner, and it will be opened for business about the middle of this month. The Hamilton Bank is, as has been stated in this column, a State institution located on One hundred and twenty fifth street near Seventh Avenue, and it is practically controlled by the Mercantile National Bank.

—Mr. Anson R. Flower, of the banking house of Flower & Co., has been elected a director of the National Bank of the Republic, taking the place on the board made vacant by the death of Vice-President Eugene H. Pullen. The Vice-Presidency of the bank is still vacant.

—The Flatbush Trust Company has been organized with a capital of $100,000 and a paid-up surplus of $50,000, to do business in that part of Brooklyn formerly known as the Town of Flatbush. The section is being rapidly built up, and the projectors of the company feel that there is room for a financial institution of this character.

—The establishment of a branch of the Colonial Bank is contemplated. This is a State institution, with a capital of $100,000 and a surplus of $79,300, located at 480 Columbus Avenue. It is proposed to open a branch bank at Columbus Avenue and One Hundred and Fourth Street. The stockholders have given their consent to the plan and the Executive Committee of the directors have the details under consideration.

—The controlling interest in the Spokane (Wash.) Exchange National Bank was purchased May 23 by the firm of Clark & Sweeny, which firm is composed of F. Lewis Clark, who came to Spokane about twelve years ago from Bangor, Me., where his father now resides. Mr. Clark is one of the solid and conservative men of the State of Washington. Charles Sweeny, the other member of the firm, has lived in the Northwest longer than Mr. Clark. He has been principally identified with large mining interests, and has made a great success out of his undertakings. The present Cashier of the bank, Mr. E. J. Dyer, will continue as Cashier, and is the principal managing spirit of the institution. He has been identified with the bank from its beginning.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1898 there is an increase in the aggregate of 26·9 per cent. So far as the individual cities are concerned, New York exhibits an increase of 27·7 per cent, and the gains at other points are: Boston 30·7 per cent, Philadelphia 20·0 per cent, Baltimore 13·6 per cent, St. Louis 1·7 per cent, New Orleans records a loss of 6·5 per cent and Chicago 3·2 per cent.

Monetary Commercial English News

[From our own correspondent.]

LONDON, Saturday, May 20, 1899.

While trade continues to expand in every direction, business upon the Stock Exchange is rather slack. In trade proper there never perhaps has been a time in which activity has been more general. In the iron trade consumption is so immense that great fears are entertained that the supply of iron ore will give out, and that the prices of all iron manufactures may therefore be raised so much that the demand will be greatly reduced. But though prices have risen they still are moderate enough, and there does not seem much sign yet of any falling off in orders.

Abroad, too, there is an improvement in business. For a long time trade has been very active both in Germany and in Belgium. Now there are signs of improvement even in France, though as yet the signs are not very considerable, except the eagerness in buying raw wool.

The meeting of the Peace Conference this week attracts very little attention in London. Few hope much from it. The utmost that is expected is that the different Powers represented will pledge themselves to consider whether any quarrels arising between them may not be submitted to arbitration before actual war breaks out, and that various plans will be adopted for lessening the horrors of war. But that any real check to the growth of armaments will be adopted is greatly doubted.

In France the hope is growing that the Court of Cassation will very soon now decide either for the revision of the Dreyfus case or the quashing of the judgment altogether. A little while ago grave fears were entertained that the General Staff might be able to stir up disturbances and thus to protect itself from punishment. But now the impression is gaining ground that the new President is strong enough to enforce the law, and that the members of the General Staff, who have been guilty of so much infamy, will be brought to well merited punishment. The return of Major Marchand is exciting some uneasiness. But it is not thought probable that he will set up to be a Boulangist. Still, there is the danger in any case, if the present distracted state of France continues, that the Exhibition next year will be gravely compromised. And the fear that it may be spoiled altogether no doubt will exercise a great influence upon public opinion in France and indeed is exercising a great influence already.

In Germany the liquidation of bad business is going on. But operators are beginning to recover courage, and there is more buying this week of American securities than there has been for some time past.

At home there is very little doing. Even investment is on a restricted scale. The truth appears to be that the demand for money for trade purposes is so great that the larger capitalists are employing the money in that way rather than upon the Stock Exchange, and the small investors are engaging in mining or industrial securities or ventures in China and elsewhere.

The great public has not taken much part in the American market for a long time, and it did not suffer, therefore, from the drop that occurred on the death of Mr. Flower. There has been more buying here this week, but largely it is by professional operators.

In the industrial market there is a pause. And there is likewise a pause in the mining market. In Western Australians there has been very active buying in some securities. But in South Africans the uncertain relations between the Boers and the Uitlanders deters people from engaging in new risks. The market here was surprised on Wednesday morning by a telegram stating that half a dozen British officers had been arrested for high treason in Johannesburg, and taken at once to Pretoria. Neither the Colonial Secretary nor the great mining magnates had any information on the subject, and the names of the prisoners were quite obscure.

The general impression here is that the conspiracy, if indeed there has been a conspiracy, is a "got up" job, the secret agents of the Boer Government organizing it for their own purpose. It is certain that the Uitlanders are unarmed, and that neither arms nor ammunition can be brought in from abroad. And therefore it is not believed that any sane men have engaged in a serious conspiracy. But of course all that remains to be seen. The fact, however, that the arrests have been made is calculated to prevent people from engaging in new risks.

Money continues easy and abundant. The four millions sterling paid by the United States Government to Spain is lodged to the credit of the latter country in London and Paris, and is helping to make money here very abundant and cheap. It is not though probable that gold will go from here either to Paris or to Madrid. The general expectation is that the money will be left in London and Paris to meet future engagements.

Meantime it looks as if we were about to have a considerable number of new issues that will take away more or less gold. The Japanese Government has arranged with a powerful group of banks in London for a loan of 10 millions sterling, bearing 4 per cent interest, the issue price to be 90. The loan is for the purpose of completing the naval and military preparations and for public works. But it is not thought probable that very much will be taken in the form of gold, for some time at all events. Japan has to pay for the ships and munitions of war she has ordered in such large numbers; and the greater part of the money, therefore, will be retained at the Bank of England and will be only gradually expended. But some of it, no doubt, will go to Japan.

The Argentine Government is again negotiating for a loan of six millions sterling. It has tried likewise in Paris and Berlin. The loan is required to fund the floating debt which was incurred during the war preparations against Chili.

Now that a peaceful arrangement has been made with Chili, the Government is naturally anxious to reduce the heavy charge of this floating debt, and to fund the debt once for all. But Argentina has been paying the full interest on its debt for so very short a time that the public here is not quite convinced that its finances are yet in a satisfactory state. And it is doubtful, therefore, whether the loan will be very freely subscribed for.

The Russian Government, moreover, is very anxious to borrow here. The French are not willing to lend much more. The Germans need all their capital for their own purposes. Russia, therefore, is not able to borrow, and she is very anxious to get admission once more to the London market. Whether it will be possible to raise a large Russian loan here remains to be seen.

There are a number of small issues likewise impending for the colonies and for smaller foreign governments, all of which will, by giving a power over the money market, tend to make that market more sensitive, and probably to raise rates very considerably in the autumn.

Meantime the India Council continues to sell its drafts very well. It offered for tender on Wednesday 40 lacs, and the total applications were more than ten times as much. The whole amount was alloted at prices ranging from 1s. 3 31-32d. per rupee to a little over 1s. 4d. per rupee.

Messrs. Pixley & Abell write as follows under date of May 18:

Gold.—Until the end of last week the Bank received all the arrivals, but since then there has been sufficient Continental demand to absorb the open market supplies, which have been rather small. The Bank has received £76,000 in bars and coin. Arrivals: Cape Town, £330,000. Shipments, May 10: Bombay, £65,000, Calcutta, £10,000. Total, £75,000.

Silver.—After falling rapidly to 28d. India came in as a buyer of both cash and forward. The price at once rose to 28 3/16d. forward, silver being 1/16d. below spot. With America somewhat inclined to sell, although not heavily, most of the advance has since been lost and close is weak at 28 1/16d. Last Indian price Rs. 71⅞ per 100 Tolahs. Arrivals: New York, £141,000; Chile, £12,000. Total, £153,000. Shipments, May 10: Bombay, £35,000; Calcutta, £17,500. Total, £52,500.

WALL STREET, FRIDAY, JUNE 2, 1899.—5 P. M.

The Money Market and Financial Situation.—Conditions in Wall Street have been somewhat abnormal this week, and therefore the character of the security markets does not accurately reflect the sentiment which generally prevails in industrial and financial circles. Following the protracted holiday at the Stock Exchange—from Friday until Wednesday—came reports of the appearance of yellow fever at New Orleans, a firmer foreign exchange market, the cause of which was not generally understood, uncertainty as to the possible effect of the new franchise tax law and an advance in the price of wheat. These circumstances enabled the aggressive element, whose interest would be favored by lower prices, to depress the market to a degree which, in the minds of some, the facts did not warrant; an opinion which to-day's buoyant market fully confirms.

Later reports from New Orleans are to the effect that only one case of yellow fever is known to have existed there, and the authorities do not apprehend any further development of it. The firmness of the foreign exchange market may have been due in part to a demand incident to June 1 settlements; but however that may be, the market is now easier and rates are below the gold-exporting point. The fact that $1,000,000 is to be shipped to-morrow is claimed to have little significance, as it is a special transaction due to higher interest rates at Berlin. As to the wheat market, that has been more or less unsteady for some time past, as is often the case at this season of the year. Other conditions which affect security values continue for the most part favorable. The heavy June 1st disbursements of interest and dividends leave the money market in an easier condition, and while there has been no material change in rates the tendency is downward.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 3 per cent. To-day's rates on call were 1½ to 2½ per cent. Prime commercial paper quoted 3¼ to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £423,385, and the percentage of reserve to liabilities was 38·78, against 38·90 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 3,550,000 francs in gold and 3,150,000 francs in silver.

The New York City Clearing-House banks in their statement of May 27 showed an increase in the reserve held of $6,147,000, and a surplus over the required reserve of $43,933,725, against $34,631,525 the previous week.

State and Railroad Bonds.—Sales of State bonds at the Board include $2,000 Alabama class A at 113 and $20,000 Virginia 6s deferred trust receipts at 8.

The market for railway bonds has been somewhat irregular but stronger than the market for stocks. The volume of business differed widely, being over $4,000,000 par value on Wednesday and less than half that amount on Thursday and to-day. There were sharp declines in a few issues, mostly those of Southwestern systems, due no doubt to uncertainty in regard to the development of yellow fever at Southern ports. Such declines were offset in part by advances in other issues, which amount to a point or more in Denver & Rio Grande 4s, Baltimore & Ohio 4s and to substantial fractions in Atchison, Erie and some less active issues. There was no perceptible increase in the offerings of high-grade bonds, and a large proportion of the transactions was in Atchison, Baltimore & Ohio, Central Pacific, Erie, Reading, St. Louis Southwestern, Union Pacific and Wisconsin Central bonds.

Railroad and Miscellaneous Stocks.—Under persistent efforts of bear operators and the absence of any considerable investment demand, the stock market was weak during Wednesday and the greater part of Thursday. The tone improved towards the close on Thursday and there was some recovery from the decline which averaged about 3 points for the active railway list and in some cases covered a much wider range. To-day's market, although less active, was strong and the decline noted above was in many cases fully recovered.

The anthracite coal stocks were notable exceptions, and were strong throughout the week. Local traction issues proved most susceptible to bear raids, and at the lowest prices recorded Metropolitan Street Railway showed a decline of 22¼ points from our last quotations, Third Avenue 15 points, Brooklyn Rapid Transit 8⅝ points and Manhattan Elevated 6¼ points. Naturally the reaction in these issues to-day was most conspicuous.

The average decline and subsequent recovery of miscellaneous stocks was somewhat more than that of the railway list, American Sugar Refining, New York Air Brake, American Tobacco, Anaconda Copper, Consolidated Tobacco, International Paper and Federal Steel leading in the movements.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of May 20, 1899. The next will appear in the issue of June 24, 1899.

Cincinnati & Muskingum Valley Railroad.

(Report for the year ending Dec. 31, 1898.)

President James McCrea says:

The trade conditions throughout the year were of a most favorable character, and the result is manifested in an increase in gross earnings for the old and new companies of $45,519, or 10 per cent. The property was again visited by severe floods which interrupted traffic for almost a week, beginning March 23d, but which, fortunately, were not so disastrous in effect as in previous years, the approximate loss being $18,500.

Pacific Mail Steamship Company.

(Advance Report for the year ending April 30th, 1899.)

President C. P. Huntington says: "Compared with the results for the preceding year the gross receipts increased $76,493, expenses decreased $419,299, and receipts over expenses increased, after deducting the loss of the SS. Starbuck, $197,780. There was paid on June 1, 1898, a dividend of 1 per cent ($200,000), and on Dec. 1, 1898, a dividend of 1½ per cent ($300,000) on the capital stock. Although $349,380 is charged to the year's expenses for 'general and extraordinary repairs of steamers,' there remained at the close of the year an unexpended balance to the credit of this fund of $214,874.

"To meet the demands of the steadily increasing traffic of the Trans-Pacific Line, two steel steamships have been ordered, to be delivered in December, 1900, and March, 1901. These vessels have a gross tonnage of 10,000 tons, are to be 550 feet in length, are to have a speed of 18 knots an hour and accommodation for 143 first-class and 1,230 steerage passengers. There has been paid for account of the construction of these steamers $320,000. The company has expended $129,478 U. S. currency, during the year, in the purchase of a controlling interest in the lighterage companies at the ports of Acajutla, Salvador and San Jose de Guatemala, in Guatemala. These acquisitions will enable the company to handle its business at said ports with much greater promptness and economy than was heretofore practicable, and the investment will yield a fair return upon its cost.

"The company is free from all indebtedness, except for current expenses, and had cash on hand in New York, San Francisco and London, April 30, 1899, of $1,142,807."

The old directors were re-elected, except Mr. Thalmann, who was succeeded by Edwin S. Cramp. The company has purchased from the Lehigh Valley RR. Co. ten acres of land adjoining the company's present plant, nearly doubling its water front. No reference was made at the meeting to the pending negotiations with Vickers Sons & Maxim.—V. 68, p. 8[illegible]

Lamson Consolidated Store Service Co.

(Report for year ending March 31, 1899.)

The annual report says in substance:

The business of the past year has been profitable, the net earnings being $276,917, as against $202,751 for the year previous. Two dividends at the rate of 8 per cent per annum, amounting to $131,354, have been earned and paid, and after having set aside $15,000 to guaranty account, $130,563 has been placed to the credit of the profit and loss account. All patent expenses for the year have been charged to expense.

The annual payment on account of the sinking fund for the redemption of bonds amounted to $38,293, this with accumulated interest making a total deposit to date for this purpose of $77,951; $100,000 of our bonds still remain in the treasury. Several patents have been issued to the company during the past year and applications for others are now pending. There are no suits pending against the company for infringement. Several new styles of carriers have been brought out and important improvements on those previously in use has resulted in raising the standard of our devices to an excellence never before reached. The cost of manufacture and installation on the other hand has been materially reduced. Orders on hand call for above one thousand stations, and the outlook for new business is most excellent for the coming year.

The report makes the following comparisons:

Akron Bedford & Cleveland RR.—Akron Traction & Electric Co.—*Consolidation.*—The stockholders of the Akron Bedford & Cleveland RR. will vote July 3, 1899, on a proposition to ratify the "agreement of consolidation heretofore entered into by and between the Akron Traction & Electric Co. and the Akron Bedford & Cleveland RR. Co. under date of May 26, 1899," and to appoint a time for the election of the directors and other officers of the consolidated company. The consolidation, it is understood, will be effected under the name of the Northern Ohio Traction Co., with a capital stock of $3,000,000.—V. 68, p. 425, 869.

Amasa Lyon Umbrella Co.—*New Stock.*—A block of $200,000 treasury stock is offered at par to supply additional working capital with which to enlarge the business. The capital stock is $500,000; par $50. "The business has been established a quarter of a century, and has at times exceeded $700,000 per annum, at an approximate net profit of 10 per cent, or $70,000; it is expected that with the increased capital a business of $1,000,000 per annum will be done."

American Brick Co.—*Officers.—Status.*—This company, organized to control and operate the leading brick-making plants along the Hudson River, is engaged in a careful investigation, by borings and otherwise, to determine the value of the several plants on which it has options. In the meantime, and probably for the remainder of the present calendar year, the corporate existence of the various companies eventually to be consolidated will be maintained. The new company has elected officers and directors as follows:

President, Oakleigh Thorne; Vice-President, Robert Main; Secretary Treasurer, Edwin Thorne.

Directors—Samuel Thorne, President of the Pennsylvania Coal Co.; Grant B. Schley, of Moore & Schley; Daniel S. Lamont, Vice-President of the Northern Pacific Ry.; R. Somers Hayes, President of the St. Paul & Duluth Ry.; Oakleigh Thorne, Edwin Thorne, Aaron E. Aldridge and Robert Main.

The capital of the company was recently increased to $15,000,000, of which $7,500,000 is to be 7 per cent non-cumulative preferred.—V. 68, p. 925.

American Car & Foundry Co.—*First Dividend.*—The company has declared a dividend of 1¾ per cent on its preferred stock, payable July 1 at the office of the Guaranty Trust Co. of New York. For the quarter ended May 31 the business included: Freight cars, 15,245; passenger cars, 48; car wheels, 176,193; castings, 17,743 tons; bar iron, 15,000 tons; axles, 3,600 tons; cast-iron pipe, 1,600 tons.—V. 68, p. 1021, 1029.

American Woolen Co.—*Purchased.*—The company, it is reported, has bought the mills of the Mascoma Flannel Co. and Riverside Woolen Co. of Lebanon. The Mascoma mills have been idle for more than six months.—V. 68, p. 770.

Baltimore & Ohio Southwestern Ry.—*Foreclosure Sale.*—Judge Thompson, of the United States Court, at Cincinnati on May 27 issued an order of sale for the property. Gen. B. R. Cowen, of Cincinnati, is made master commissioner to make the sale, and is directed to give four weeks' notice of the day, to be selected by himself. The sale will be at Cincinnati. The property is to be offered in parcels and as an entirety. The lowest bid to be received as an entirety is $3,500,000.—V. 68, p. 378.

Baltimore & Ohio RR.—*Meeting to Authorize New Stock and to carry out B. & O. Southwestern Reorganization.*—The holders of trust certificates issued for the preferred and common stock pursuant to the voting trust agreement of June 22, 1898, are notified that a meeting will be held at the office of the company, No. 2 Wall Street, New York, on June 26, 1899, for the purpose of authorizing the issue of $20,000,000 additional preferred stock and $10,000,000 additional common stock, in order to carry out the plan for the reorganization of the Baltimore & Ohio Southwestern Railway Co., dated Dec. 15, 1898. The stock itself will vote on the same proposition on June 28.—V. 68, p. 1022.

Barrett Manufacturing Co.—*Bonds Offered.*—George A. Huhn & Sons of Philadelphia have received subscriptions at par and interest to $584,000 five per cent first mortgage gold bonds, due 1939, the unsold balance of a total issue of $2,500,000. The right is reserved to call the bonds in 1919 at 110 and interest, while no prior mortgage, it is provided, shall be created without the consent of a majority of the issue. The company, which has regularly paid dividends of 8 per cent on its capital stock of $3,000,000, is a distiller of coal tar, manufactures roofing and paving materials and coal tar products, imports and refines Trinidad asphalt, etc. It owns properties in eighteen of the large cities of the country. Geo. W. Elkins is President and George D. Widener a director.

Boston & Maine RR.—*Purchase Approved.*—The stockholders on May 24 ratified the purchase of the Eastern RR. of New Hampshire by a vote of 119,576 to 1.—V. 68, p. 925.

Boston Breweries Co.—*Bonds Offered.*—The Produce Exchange Trust Co., New York; the International Trust Co., Boston, and the Industrial Trust Co., Providence, offered this week for subscription at 103 $3,500,000 of the Boston Breweries Company's $6,250,000 first mortgage six per cent 30-year sinking fund gold bonds, dated June 1, 1899, maturing June 1, 1929, interest payable June and December; International Trust Co., of Boston, Trustee. Of the authorized issue $2,750 000 had previously been taken by the vendors and by private subscription. The prospectus says:

The company has been incorporated under the laws of New Jersey for the purpose of acquiring ownership of the following ale and beer brewery properties, situated in the city of Boston, viz.:

American Brewing Co.	Puritan Brewing Co.
Alley Brewing Company.	Star Brewing Co.
Hanley & Casey Brewery Co.	Park Brewery.
McCormick Brewery Co.	Franklin Brewing Co.
Union Brewing Company.	Hub Brewing Co.

And also a controlling interest in the stock of the Boston Beer Co., which was especially chartered by Massachusetts in 1828. The possession of this special charter is of great value to the consolidated company. The average annual output of these breweries (exclusive of the Hub, which, being entirely new, has only recently started operations) for two and a-half years ending with 1898 was 505,000 bbls. The combined establishments have a total capacity of over 1,500,000 bbls. The value of the above plants has been appraised at $9,333,000, exclusive of personal assets or working capital. The company will begin business with an active working capital (consisting of cash, bills receivable, supplies, etc.) of about $1,100,000, which is ample for successful operation, and with no obligations beyond the above issue of bonds.

The company will issue 7 per cent preferred stock, $6,500,000; common stock, $3,250,000; first mortgage, 6 per cent, 30-year sinking fund gold bonds, $6,250,000. The average annual net earnings of ten companies, as certified by the accountants, is $632,303; add net earnings of the Hub Brewing Company, $50,000; add one-half of expected savings and economies, $200,000; total, $886,303. The 6 per cent interest on $6,250,000 bonds calls for $375,000.

Officers—President, Harrison W. Huguley, President of the Boston Brewers' Board of Trade; Vice-Presidents, William A. Miller, James D. Casey, Thomas McCormick; Secretary and Treasurer, Frederick J. Alley.

Directors—Harrison W. Huguley, James D. Casey, William A. Miller, Thomas McCormick, Frederick J. Alley, James W. Kenney, Daniel Shea, John J. Collins, Nelson J. Waterbury, David Murdock, Charles N. King.

Provision is made in the mortgage for the payment (after 1901) of $50,000 per year, which, with the accumulations of the sinking fund, will be employed in purchasing bonds for that fund. If the bonds cannot be bought in the open market at less than 110 and interest, they may be drawn by lot at that price.—V. 68, p. 1022.

Butte City Water Co.—*Receiver.*—On May 26 the company was placed in the hands of a receiver by Judge Knowles, on the application of the Massachusetts Loan & Trust Co., trustee under a mortgage securing $2,000,000 bonds, interest on which is in default. It is reported that the reorganized property will be controlled by the Amalgamated Copper Co.

Calumet Electric Street Ry. of Chicago.—*Receiver's Certificates.*—At Chicago, on May 26, Judge Kohlsaat, in the United States Circuit Court, authorized the issue of $350,000 5 per cent receiver's certificates, due in or before 1904. Part of the issue is to be used to pay off indebtedness of $368,200, and the rest for necessary improvements, etc. The liabilities are as follows: First mortgage bonds issued Sept. 1, 1892, for $51,000; receiver's certificates, dated June 1, 1897, for $200,000; special receiver's certificates, dated Nov. 16, 1898, for $4,700; receiver's promissory notes, dated Jan. 9, 1899, for $54,500; order of court for improvement of road for $58,000.—V. 67, p. 1002.

Carnegie Steel Co.—*Output.*—The Pittsburg Chamber of Commerce, in its year book just issued, gives the production of the Carnegie Steel Co. in 1898 as 2,063,466 gross tons of pig iron, ferromanganese and other blast furnace products, while 2,171,225 gross tons of steel ingots were rolled into finished products. The company also produced 53,154 gross tons of finished castings.—V. 68, p. 1022.

Chicago & Harlem Railway—Lake Street Elevated RR.—*New Mortgage.*—The Chicago & Harlem Railway Co., successor of the Chicago & Harlem Railroad Co., has executed a mortgage to the Equitable Trust Co. of Chicago, as trustee, to secure 5 per cent gold bonds due May 1, 1939, interest payable May 1 and November 1. The first $1,000,000 bonds are to be certified from time to time to pay for constructing and equipping the road described in the mortgage; additional bonds to an unlimited amount may be issued to cover 75 per cent of the actual cost of the following:

Building railroad additional to that authorized by the aforesaid ordinance; acquiring right of way; acquiring other railroads by purchase, lease or otherwise; completing, finishing, improving, maintaining and operating its railroad other than that specified in the aforesaid ordinance, and acquiring terminal facilities.

The mortgage made by the railroad company in 1898 will be discharged of record.—V. 66, p. 759; V. 68, p. 128.

Chicago Burlington & Quincy RR.—*Bonds a Legal Investment for Massachusetts Savings Banks.*—In Massachusetts, recently, Attorney-General Knowlton rendered a decis-

ion affirming that the bonds of the company are legal investments for Massachusetts savings banks.—V. 68, p. 1023.

Chicago Laundry Co.—*Consolidation—Stock Offering.*—Subscriptions were opened in Chicago on May 24 at the Title Guarantee & Trust Co., 108 La Salle St., and W. B. Doods & Co., 503 Chicago Stock Exchange Building for $1,500,000 of this new company's preferred stock at par with a bonus of 100 per cent in common stock. The company is organized to acquire about 90 per cent of the laundry business of Chicago, the concerns to be taken over numbering about seventy-five and leaving unacquired only about twenty-five, all of the latter, it is said, being of small importance. The authorized capital stock will be as follows: Preferred stock, 7 per cent cumulative, $3,000,000; common stock, $4,000,000. With the proceeds of the $1,500,000 preferred shares offered to the public it is proposed to provide $250,000 cash working capital and to apply the remainder to the purchase of the properties acquired. The vendors agree to take in stock $1 500,000 of preferred and a like amount of common, leaving $1,000,000 of common stock for other purposes.

Chicago Union Traction Co.—West Chicago Street RR.—North Chicago Street RR.—*Leases Ratified.*—At Chicago yesterday the stockholders of the North and West Chicago Street RR. companies voted to lease the systems to the Chicago Union Traction Co. President Charles T. Yerkes will also retire as an active official of the Chicago Street RR.—V. 68, p. 976.

Cleveland Akron & Columbus Ry.—Lake Erie & Western RR.—Pennsylvania RR.—*Transfer of Control.*—The Lake Erie & Western has sold to the Pennsylvania RR. Co. its holding of a controlling interest in the stock of the Cleveland Akron & Columbus, this holding amounting to $2,237,500 of the total share capital of $4,000,000. The transfer was made June 1. It is supposed that the C. A. & C. second mortgage bonds will be redeemed at par Aug. 1, 1900, under the provision in the mortgage. No provision was made in the sale just made for the minority interest in the stock.—V. 68, p. 925; V. 68, p. 719; V. 68, p. 825.

Concord & Montreal RR.—*Extension and New Bonds.*—On May 24 the stockholders voted to authorize "the building of a branch railroad from some convenient point on the line of the Manchester & North Weare RR. in the city of Manchester, or Goffstown, west of the Merrimac River, to some convenient point in the town of Milford; said branch to be built as a permanent addition to the Concord & Montreal RR., under provisions of the lease to the Boston & Maine RR. dated June 29, 1895, and that the bonds of the corporation be increased to such an amount, not exceeding $300.000, as may be necessary for the building of such branch road."—V. 65, p. 26.

Connecticut Lighting & Power Co.—*Pending Merger.*—A. M. Young, of Waterbury, A. M. Paige, of Bridgeport, and a syndicate of New York capitalists, it is reported, are planning to unite under this title various Connecticut trolley roads, including the Central Railway & Electric Co. of New Britain, Norwalk Street Railway Co., Waterbury Traction Co., Norwalk Tramway, Bridgeport Traction Co., Westport & Saugatuck, Winchester Avenue RR. of New Haven, Derby Street RR., Bristol & Plainville and the Shelton Street Railway Co. The plan is said to be construct extensions so as to form a through line from Waterbury to New Haven and from New Haven to Stamford.

Consolidated Lake Superior Co.—Michigan Lake Superior Power Co.—Lake Superior Power Co.—*New Company to Develop Sault Ste. Marie Water-Power, Etc.*—The Consolidated Lake Superior Co., incorporated by Special Act of the Legislature of Connecticut, has been organized by Philadelphia parties to acquire and develop the already partially developed water-power, estimated at 200,000 hydraulic horse-power, at Sault Ste. Marie, Michigan and Ontario, to acquire, develop and utilize large mineral deposits—nickel, copper and iron—found in this section, and for the refining of which a portion of the electrical energy created will be used; also to utilize the timber resources of the adjacent country. The company has excellent facilities for shipment by water to all Lake ports, and also owns a belt line railway, extending through its properties on either side of the river, affording the best of connections for rail shipments. The capital stock of the following companies, now operating at Sault Ste. Marie, is to be acquired: Lake Superior Power Co.; Michigan Lake Superior Power Co.; Sault Ste. Marie Pulp and Paper Co., and the Tagona Water & Light Co. The prospectus says that through the acquisition of the capital stock of said companies, together with other properties, rights and franchises now being acquired, the new company will become possessed of the following assets:

(1) Lands and water-power rights at Sault Ste. Marie, Michigan [Michigan Lake Superior Power Co.], sufficient for development of 60,000 H.P. The hydraulic canal, power station, and installation of hydraulic machinery are now under construction, and will be completed in April of next year. An issue of $3,500,000, five per cent fifty year bonds, secured only on this development of 60,000 H.P. on the Michigan side (the proceeds of which will fully complete the same), has been subscribed for, and one-half of this horse-power has been leased for a period of 25 years to the Union Carbide Co. of New York and Chicago, at an annual rental of $200,000, which will suffice to pay the interest on the entire bond issue and operating expenses. The resulting revenue arising from the sale of the remaining power of this 60,000 H.P. development, to tenants now applying for same to this company, should equal $250,000 per annum.

(2) Lands and water-power rights at Sault Ste. Marie, Ontario [Lake Superior Power Co.], controlling the development of 100,000 H.P., of which about 20,000 H.P. has been developed by means of a substantial power canal and stone power station. This canal is being employed, to the extent of about three-fourths of its capacity, in operating the mills of the Sault Ste. Marie Pulp & Paper Co., leaving about 5,000 H.P. now available, and to be first used in the nickel steel and reduction works now being established. The remaining 80,000 H.P. on the Canadian side is susceptible of the most economical development, which it is proposed to proceed with at once.

(3) Pulp Mills. These mills are among the largest of their kind in the world, and are yielding an annual net profit of about $150,000.

(4) Machine Shops and Foundry. These works are new and of the most modern design, and equipped for manufacture of pulp and paper mill, hydraulic, mining, smelting and electrical machinery. The net revenue of these works for the year 1898 was $35,000 and the business is increasing.

(5) Forests. By a contract with the Province of Ontario, this company owns a grant of timber from Government lands, equivalent to the growth upon 1,000 square miles of virgin forest, situated north and west of the company's works, and so located as to insure an inexhaustible supply of pulpwood and timber at lowest possible cost.

(6) Nickel Steel. The nickel mines of the company are located in the celebrated Sudbury Nickel Range in Canada, and include an area upwards of 500 acres, and are estimated to be capable of an output of several thousand tons daily. The new process, nickel steel, of the company is the result of some years of scientific research and experiment at the works of the Lake Superior Power Co., at Sault Ste. Marie, Ontario. The company has agreed to sell to the Krupp Works at Essen, Germany, all the nickel steel it can produce for a term of five years, up to 250 tons daily.

The authorized capital stock is $20,000,000, consisting of 400,000 shares, $50 each, viz.: 120,000 shares, 7 per cent non-cumulative preferred stock and 280,000 shares common stock. Of these, 30,000 shares preferred and 285,000 common are issued for properties acquired, and 90,000 shares preferred, $5 called, are offered for subscription, with 45,000 shares of full paid common as bonus. The next instalment of $5 per share on the preferred stock, it is understood, will be payable July 1, after which it is expected no further call will be made this year. "There will be available as required, for construction and working capital, the sum of $4,500,000 in cash."

The directors are as follows:

E. V. Douglas, President Consolidated Lake Superior Co., Philadelphia; W. P. Douglas, Secretary Consolidated Lake Superior Co. Philadelphia; T. C. Search, Treasurer John B. Stetson Co.; Harry A Berwind, Berwind-White Coal Mining Co.; John Pitcairn, President Pittsburg Plate Glass Co.; James Butterworth, President H. W. Butttrworth & Sons Co.; Samuel R. Shipley, President Provident Life & Trust Co.; James S. Swartz, Treasurer International Navigation Co.; Hon. Lynde Harrison, Attorney-at-law, New Haven, Conn.; F. S. Lewis, Treasurer Pennsylvania & Northwestern RR.; F. H. Clerque, President Sault Ste. Marie Pulp & Paper Co.

Continental Cotton Oil Co.—*New Project.*—The "Manufacturers' Record" has the following regarding this new company, which C. L. Rathborne & Co. are financing:

It is expected that subscriptions to the stock will be received in a few days. Options have been taken on seven of the largest plants in the South, all of which, with one exception, are located west of the Mississippi River. The companies of the new combine are Paris Oil & Cotton Co., Paris, Texas; Corsicana Cotton Oil Co., Corsicana, Central Texas Cotton Oil Co., Temple, Texas; Waxahachie Cotton Oil Co., Waxahachie, Ladonia Cotton Oil Co., Ladonia, Shreveport Cotton Oil Co., Shreveport, La., and Jackson Cotton Oil Co., Jackson, Miss. The crushing capacity of the new company is about 1,000 tons per day. The financial plan divides the stock into $3,000,000 common and $3,000,000 preferred, the latter being 7 per cent cumulative.

The plan provides that a sum not less than $1.250,000 shall be retained in the treasury for enlarging the business, acquiring new property and building new plants.—V. 68, p. 670.

Diamond Match Co.—Continental Match Co.—*Purchased New Stock.*—The Diamond Match Co., it is announced, has arranged to purchase from Edwin Gould control of his Continental Match Co., whose plants are situated at Passaic, N. J., Ogdensburg, N. Y., and Kankakee, Ill. To effect the purchase the Diamond Match Co. will issue $1,000,000 new stock, part of an additional $3,000,000 or $4,000,000 new stock which it is proposed to create. From the balance of the new shares the intention is to acquire several independent factories on which the Diamond Match Co. has options, and which will give it practical control of the output of matches in the United States. A portion at least of the new stock, it is expected, will be sold at par to the company's stockholders. Mr. Gould, it is reported, will become a director of the Diamond Match Co.—V. 68, p. 976.

Electric Co. of America.—*Purchase.*—It is reported that the company has acquired control of the Wheeling, W. Va., electric-light plant. The Atlantic City Electric Light Co., which is owned by the Electric Company of America is engaged in a contest with the Atlantic City Gas & Water Co., which also supplies electric lights.—V. 68, p. 822.

Elyton Company.—*Reorganization Plan.*—A plan for the reorganization of the company under agreement dated Oct. 4, 1898, has been prepared and adopted by the committee, consisting of William Halls, Jr., Chairman; Augustus W. Kelley, Alexander D. Seymour, Thomas G. Jones and William T. Hardie. Copies of the plan have been lodged with the depositories named in the agreement, viz.: Union Trust Co. of New York, Birmingham Trust & Savings Company, Birmingham, Ala., and Whitney National Bank, New Orleans. The plan will be binding upon all the security holders, who shall not withdraw stock or bonds represented by certificates on or before June 20, 1899.—V. 67, p. 955.

Erie RR.—New Castle & Shenango Valley RR.—*Control of Stock.*—A controlling interest in the capital stock of the New Castle & Shenango Valley RR. has been acquired in the interest of the Erie RR. through the purchase of the stock of George W. Johnson and others. The line has been operated by the Erie under lease.—V. 68, p. 976.

Exeter Hampton & Amesbury St. Ry.—*Consolidation.—New Securities.*—This company having acquired all the property, assets and franchises of the Exeter Street Ry., the

Speculation in cotton for future delivery has continued without animation and there have been no changes of an important nature in values. Weather conditions at the South have been generally favorable and crop prospects have been good, which has prompted limited selling of the new crop deliveries. Bear operators, however, have not been aggressive in their operations, as prices have been on too low a basis to admit of free sales. The continued healthy condition of the cotton goods market both at home and abroad had a tendency to give tone to the situation. English advices have reported steady markets, a good demand at Liverpool for spot cotton being the sustaining factor. To-day the market continued to present a tame and uninteresting appearance. English advices reported a slightly steadier market and a few buying orders for Liverpool account, with the result that prices advanced a point or two early in the day. During the day the slight improvement in prices was lost, closing unchanged, exclusive of August, which was 1 point higher. Cotton on the spot has been quiet and unchanged at 6¼c. for middling upland.

The rates on and off middling, as established Nov. 16, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

☞ The imports into Continental ports the past week have been 89,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 657,136 bales as compared with the same date of 1898, a gain of 1,156,426 bales over the corresponding date of 1897 and an excess of 1,024,614 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897-98—is set out in detail below.

* Decrease during week.

It will be seen by the above that there has come into sight during the week 53,818 bales, against 53,830 bales for the same week of 1898, and that the increase in amount in sight to-night as compared with last year is 43,223 bales.

The above statement shows: 1.—That the total receipts from the plantations since Sep. 1, 1898, are 8,441,519 bales; in 1897-98 were 8,629,021 bales; in 1896-97 were 6,606,509 bales.

2.—That although the receipts at the outports the past week were 32,269 bales, the actual movement from plantations was 12,814 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 9,822 bales and for 1897 they were —— bales.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph this evening from the South indicate that the weather has been favorable as a rule during the week. At some points on the Atlantic where moisture was needed there has been beneficial rain and the temperature has been generally satisfactory. In districts of Texas, however, and in some sections of the Gulf States rain is needed.

Galveston, Texas.—There has been no rain the past week The thermometer has averaged 81, ranging from 78 to 84. Month's rainfall *nil.*

Palestine, Texas.—There has been no rain the past week. The thermometer has ranged from 68 to 90, averaging 79. May rainfall four inches and eighty-four hundredths.

Huntsville, Texas.—We have had dry weather all the week. Average thermometer 83, highest 94 and lowest 71. Month's rainfall one inch and twenty-one hundredths.

Dallas, Texas.—It has been day all the week. The thermometer has averaged 79, the highest being 94 and the lowest 63. May rainfall four inches and forty-four hundredths.

San Antonio, Texas.—It has rained very lightly on one day of the week; minimum temperature 74; month's rainfall two inches and twenty-two hundredths.

Luling, Texas.—We have had a trace of rain on one day during the week. The thermometer has ranged from 72 to 92, averaging 82. Month's rainfall two inches and thirty-six hundredths.

Columbia, Texas.—Moisture is badly needed. There has been no rain during the week. Average temperature 73, highest 88 and lowest sixty-eight. May rainfall ten hundredths of an inch.

Cuero, Texas.—Dry weather has prevailed all the week, The thermometer has averaged 83, the highest being 94 and the lowest 71. Month's rainfall one inch and seventy-six hundredths.

Brenham, Texas.—Rain has fallen on two days of the past week to an inappreciable extent. The thermometer has averaged 81, ranging from 71 to 90. May rainfall one inch and twenty-eight hundredths.

Corpus Christi, Texas.—There has been no rain during the week. The thermometer has ranged from 76 to 84, averaging 75. Month's rainfall one inch and fifteen hundredths.

Weatherford, Texas.—There has been a trace of rain on one day during the week. The thermometer has averaged 84, the highest being 97 and the lowest 71. May rainfall five inches and fifty-four hundredths.

New Orleans, Louisiana.—We have had rain on one day of the week, the precipitation reaching fourteen hundredths of an inch. The thermometer has averaged 80.

Shreveport, Louisiana.—We have had a trace of rain on

one day during the week. The thermometer has ranged from 68 to 93, averaging 80.

Columbus, Mississippi.—We have had rain on three days during the past week, the rainfall being ninety-three hundredths of an inch. Average thermometer 80, highest 94 and lowest 64. Rainfall for the month of May four inches and fifty-six hundredths.

Leland, Mississippi.—We have had no rain during the week. The thermometer has averaged 74, the highest being 87 and the lowest 60.

Vicksburg, Miss.—Crops are backward and a poor stand. Rain is much needed in some localities. Rain has fallen on one day of the week, the precipitation reaching seventy-eight hundredths of an inch. The thermometer has averaged 79, ranging from 65 to 90.

Greenville, Mississippi.—The weather has been hot during the week, but with very little rainfall.

Little Rock, Arkansas.—We have had rain on one day of the week, the rainfall reaching one inch and seventy six hundredths Average thermometer 75, highest 90, lowest 60.

Helena, Arkansas.—The weather has been hot and satisfactory for crops, which are growing finely. We have had heavy rain on one day of the week, to the extent of one inch and five hundredths The thermometer has averaged 74, the highest being 84 and the lowest 62. May rainfall three inches and ninety-five hundredths.

Memphis, Tennessee.—The weather has been favorable for the growth of young crops. There has been rain on two days of the week, to the extent of one inch and forty-one hundredths. The thermometer has averaged 77·6, ranging from 65·3 to 87·1. May rainfall five inches and eighteen hundredths, on ten days.

Nashville, Tennessee.—There has been rain during the week to the extent of four hundredths of an inch. The thermometer has ranged from 58 to 90, averaging 74.

Mobile, Alabama.—Crop reports are irregular and conflicting. In some sections cotton is not up and in others not yet planted. Early cotton is doing fairly well but is two to three weeks late, and general rains are badly needed. It has rained on two days of the week, the rainfall being sixty-eight hundredths of an inch. Average thermometer 77, highest 84 and lowest 62. May rainfall one inch.

Montgomery, Alabama.—Crops are doing very well. We have had rain on one day of the past week, the rainfall being twenty-two hundredths of an inch. The thermometer has averaged 74, the highest being 93 and the lowest 55. May rainfall one inch and seventy-three hundredths.

Madison, Florida.—We have had no rain the past week. The thermometer has ranged from 68 to 95, averaging 82.

Savannah, Georgia.—The week's rainfall has been twelve hundredths of an inch, on two days. Average thermometer 76, highest 93, lowest 60.

Augusta, Georgia.—There has been rain on one day during the week, to the extent of eighteen hundredths of an inch. The thermometer has averaged 75, the highest being 93 and the lowest 52.

Charleston, South Carolina.—There has been rain on four days during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 75, ranging from 62 to 87.

Stateburg, South Carolina.—It has rained on one day during the past week, the rainfall being twenty-four hundredths of an inch, and it is raining now. There are indications of an abundant supply of needed moisture. The thermometer has ranged from 53 to 93, averaging 76. May rainfall one inch and fifteen hundredths.

Greenwood, South Carolina.—Rain has fallen on one day of the week, to the extent of fifty-three hundredths of an inch. Average thermometer 78, highest 98 and lowest 65. May rainfall one inch and eighty-four hundredths.

Wilson, North Carolina.—We have had rain on one day during the week, to the extent of forty-five hundredths of an inch. The thermometer has averaged 76, the highest being 88 and the lowest 52.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock June 1, 1899, and June 2, 1898.

JUTE BUTTS, BAGGING, &C.—Jute bagging has been absolutely without activity during the past week. Prices are nominally 5⅝@5¾c. for 1¾ lbs. and 6⅛@6¼c. for 2 lbs., standard grades. Jute butts also continue dull at 1·05c. for paper quality and 1⅝c. for mixing to arrive. From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during May were 33,884 bales, against 63,140 bales for the same month last year, and since January 1 the deliveries have been 159,088 bales, against 241,693 bales last year. Importers and speculators at New York and Boston held no stock on May 31 in either year; amount afloat for the United States reaches 70,106 bales, against 128,327 bales last year.

NEW ENGLAND MILLS SITUATION.—Weavers in the Warwick (R. I.) cotton mills to the number of one hundred and thirty struck on June 1 in support of a demand for a ten per cent increase in wages.

OUR COTTON ACREAGE REPORT.—Our cotton acreage report will probably be ready about the 8th of June. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending June 1, and for the season from Sept. 1 to June 1 for three years have been as follows:

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations June 2 at Savannah, for Floridas, common, 9c.; medium fine, 10c.; choice. 13c., all nominal

Charleston, Carolinas, medium fine, 18c.; fine, 20c.; full fine, 23 to 25c.; extra fine 40 to 50c.

OVERLAND MOVEMENT &C., TO JUNE 1.—In our editorial columns to-day will be found our regular statements of overland movement, receipts, exports, spinners' takings, &c., brought down to June 1.

NEW YORK COTTON EXCHANGE—TWENTY-NINTH ANNUAL MEETING.—*The twenty-ninth annual meeting of the New York Cotton Exchange was held on Wednesday, May 31. In their joint report President Robinson and Secretary Bullard* remark:

The satisfactory termination of the war with Spain brought about a general revival of business throughout this country, which has been shared in by the cotton trade, and the abundance of American capital, the immense prosperity of American industry, and the bright outlook for incorporated American enterprise, is very encouraging for the future of our Exchange.

An event which cannot be too strongly emphasized, because of its great importance to the whole country, but particularly to the State and city of New York, and thereby to our Exchange, is the action of Congress at its last session, by appropriating an amount of money sufficient to improve the harbor of New York so that from its docks to the open ocean there will be a depth of water great enough at any condition of the tide, and at any hour of the twenty-four, for the passage of the largest vessels afloat.

We deem it not improper to say that the Internal Revenue law, commonly known as the "War Tax," while bearing more heavily upon this than many other industries, has been cheerfully paid by the members of the Exchange, and we have made no attempt to have the disproportion in the tax adjusted, because of the great need which still exists for money by the Government. But while business men are willing to stand much, when necessary as a war measure, an effort should be made at the next session of Congress, by the interests discriminated against, to affect an adjustment of the taxes, because the Stamp Tax is likely to continue for a considerable time, and may become a permanent feature of internal revenue.

We are confronted by a condition of affairs with regard to State taxation unparalleled in the history of the city, because the law is raught with inequalities even greater than have previously existed. The increase in both the tax valuation and the tax rate will, we believe, prove more burdensome to the real estate interests in this section of the city than to any other, and the members of this Exchange will doubtless have to meet a large increase in taxes on their property the coming year. A combined effort by this and other organizations interested should, we believe, be made before the assembling of the Legislature again, by memorial to His Excellency Governor Roosevelt, to interest himself in the removal of this inequality.

The by-laws and rules have been so amended as to make allowance for extra staple in the classification of cotton; the same to go into effect the first of January next.

The report of the Warehouse and Delivery Committee is very satisfactory. It will be seen that that there has been an increase of cotton for inspection and certification. There were inspected and certificates issued for 114,465 bales from May 1, 1898, to April 30, 1899, inclusive; during the same period certificates for 65,184 bales were canceled, leaving certificates outstanding on April 30, 1899, for 102,476 bales of cotton. The reclamations on the bureau have amounted for the year to $51 52, and the balance on hand, in the guaranty fund, is $51,276 18, against $40,498 14 last year.

The small amount of claims for errors in grade is the strongest evidence that the classing of cotton by the classification committee has been done in a most careful manner. It is a satisfaction, too, to know that the guaranty fund has substantially increased, the maintenance of which fund is a conspicuous feature of the trading on our Exchange, guaranteeing, as it does, the grade of all cotton inspected under the auspices of the Exchange, thereby insuring the receivers of cotton against any loss by errors in classification.

During the past year 22 memberships have been transferred and 15 new members admitted. There have been purchased and canceled by the Exchange, under authority of the by-laws, four memberships, leaving the total number of memberships outstanding 450.

The trustees of the gratuity fund report assets $117,455 74, and liabilities $53,375 00, leaving a balance to the credit of the fund of $64,080 74.

The treasurer's report, which is appended hereto, shows that the combined profits from the building and the Exchange have exceeded the estimates made by the Executive Committee at the beginning of the year by $3,550 89.

The Executive Committee reports that, with only one exception, all the offices in the building are rented, yielding an estimated rental of $55,500, against the actual rental of $55,323 56 last year, which is a very gratifying result in view of the increased competition. It will be seen that the committee estimates there will be a surplus for the coming year from the building of $2,500, and from the Exchange $4,475, based upon annual dues of $50; total estimated profit, $6,975.

In consideration of the favorable condition of the finances of the Exchange—the Treasurer's statement showing a surplus of $18,906 60—the Board recommends that the dues for the coming year be fixed at $50, and that the sum of $20 be credited to each membership from the earnings of the building and of the Exchange.

FALL RIVER MILL DIVIDENDS.—Twenty-nine of the thirty-seven cotton-manufacturing corporations in Fall River have declared dividends during the second quarter of the year, and the total amount paid out is very much greater than the total for the corresponding period of last year. The aggregate of the amount distributed has been $265,525, or an average of 1·22 per cent on the capital. In 1898, however, only fourteen mills declared dividends in the second quarter, the average rate of distribution being but ½ of one per cent. In 1897 the average dividend for the second quarter was 0 91 per cent, in 1896 it was 1·57 per cent, in 1895 it was 1·58 per cent, in 1894 was 1·52 per cent and in 1893 reached 2·36 per cent.

PRODUCE EXCHANGE ANNUAL MEETING.—The annual meeting of the New York Produce Exchange was held on Wednesday, May 31st. President Brainard in his annual address referred to the satisfactory condition of the finances of the Exchange, and pointed out that the cash value of the commodities dealt in on the floor of the Exchange amounted to $422,797,217, being an increase of $1,099,260 over the year previous. The report of the Treasurer showed the gross income for the year ending April 30th, 1899, to have been $313,480 21; gross expenditures, $254,679 50; leaving net surplus of $58,491 18.

WEATHER RECORD FOR APRIL.—Below we give the thermometer and rainfall record for the month of April and previous months of this year and the two preceding years. The figures are from the records of the Weather Bureau, except at points where they have no station; at those points they are from records kept by our own agents.

GOVERNMENT WEEKLY COTTON REPORT.—Mr. James Berry, Chief of the Climate and Crop Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending May 29:

VIRGINIA.—Week cool and dry; crop growth generally checked; rain and warmth needed.

NORTH CAROLINA.—A cold, unfavorable week with frosts Thursday, checking growth of all crops; some cotton killed; drought in west; warm showers needed everywhere; damage by insects considerable; planting finished, cultivation progressing favorably; crops generally clean.

SOUTH CAROLINA.—Scattered showers; drought continues; need of rain general; cool weather injured cotton, late plantings not up, some yet to plant.

GEORGIA.—Good rains over Southern half of State greatly benefited crops; crops still suffering for moisture in northern counties; cotton doing fairly well, but being damaged by worms.

FLORIDA.—While rainfall distribution was not general the greater portion of the State was favored by showers, benefiting cotton.

ALABAMA.—Unfavorably cool nights, but quite general and beneficial rains; cotton improving, well cultivated, and very early planted forming squares; worms and grasshoppers still damaging cotton.

MISSISSIPPI.—Crop outlook much improved in North and Central districts, where good rains have fallen, showers in Southern section insufficient; cotton somewhat improved, nights too cool, early planted looking well, late planted inferior and many replanting.

LOUISIANA.—Few scattered showers, insufficient to effect general crop conditions; on account of drought cotton making slow growth, and much cotton not up.

TEXAS.—Scattered showers northern portion, dry elsewhere; cotton growing rapidly, forming squares in southern portion; crop well cultivated, except in some localities of northern portion; showers retarded farm work where planting is not completed, some fields very foul.

ARKANSAS.—Rain retarded farm work; cotton nearly all planted, except in overflowed districts, where replanting was delayed on account of wet condition of ground, stand only fair, squares beginning to form in some localities.

OKLAHOMA.—Conditions generally favorable for all crops; cotton has been cultivated.

These reports on cotton are summarized by the Department as follows:

The condition of cotton has improved over the eastern portion of the cotton belt, except in the Carolinas, where the weather has been too cool. The crop has made slow growth and is suffering for rain in portions of Louisiana and Mississippi, while too much rain has injured the stand in Arkansas. In Texas cotton is growing rapidly and the crop is well cultivated, except in some localities of the northern portion, where the fields are foul.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—We give below a statement showing the exports of domestic cotton manufactures for April and for the ten months ended April 30, 1899, and for purposes of comparison like figures for the corresponding periods of the previous year are also presented:

BREADSTUFFS.

FRIDAY, June 2, 1899.

A fair volume of business has been transacted in the market for wheat flour and higher prices have been paid. The continued upward course to values for the grain has given buyers increased confidence in the situation, with the result that jobbers have shown more of a disposition to meet sellers at the higher prices ruling, and there has been limited buying in anticipation of future requirements. The export business has been light, as shippers' limits have been too low to admit of trading. Rye flour has had only a small sale, but prices have been unchanged and steady. Corn meal has been in moderately active demand and steady.

Speculation in wheat for future delivery has been fairly active and the tendency of prices has continued towards a higher basis. The buying for investment account has been fairly spirited and there has also been a good demand from shorts to cover contracts. Crop accounts from the winter-wheat belt have continued of an unfavorable character and latest estimates reduce the acreage for winter wheat, stating that 2,000,000 acres had been ploughed up during May. During the latter part of the week decidedly stronger European advices, based on unfavorable crop prospects in Russia due to prolonged drouth, also had a strengthening influence. The Southwest has been the leader in the buying, numerous orders being received from St. Louis. Early in the week a free movement of the crop in the Northwest and heavy world's shipments to Europe prompted fairly free offerings. Subsequently, however, the unfavorable crop accounts brought these sellers into the market as free buyers to cover contracts. Thursday there was an easier market under free sellings by longs to realize profits, and a continued free movement of the crop in the Northwest induced some selling from that quarter. Business in the spot market has been only moderately active, as exporters have not been free buyers; prices have advanced with futures. To-day the market was firm early in the day on crop news and stronger foreign advices. Subsequently a continued heavy movement of the crop in the Northwest prompted realizing sales and most of the improvement was lost. The spot market was firm but quiet. The sales for export were 24,000 bushels at New York and 16,000 bushels at outports,

Indian corn futures have been only moderately active and no decided changes have occurred in values. Early in the week a free movement of the crop and reports of a large acreage had their influence against values. Bear operators, however, were not aggressive, and on a continued active export demand and sympathy with the advance in wheat, values show a fractional advance. Business on the spot market has been active as exporters have been good buyers and prices have advanced slightly. To-day the market was firmer on a demand from shorts to cover contracts. The spot market was moderately active and steady. Sales for export here and at outports were 240,000 bushels.

Oats for future delivery at the Western market have been quiet. At the opening of the week under review large receipts in the interior and favorable crop prospects prompted moderate offerings, under which prices weakened slightly. Subsequently, however, the loss was more than recovered, in sympathy with the advance in wheat and on a demand from shorts to cover coneracts. The local spot market has been moderately active, but at slightly lower prices. Exporters have been buying. To-day there was a steadier market. The spot market was moderately active. The sales for export were 80,000 bushels.

GOVERNMENT WEEKLY GRAIN REPORT.—Mr. James Berry, Chief of the Climate and Crop Bureau of the Agricultural Department, made public on Tuesday the telegraphic reports on the grain crops in the various States for the week ending May 29 as follows:

WEATHER.—The week ending May 29, 1899, has been much too cool in the Middle and South Atlantic States, but elsewhere east of the Rocky Mountains the temperature conditions have been very favorable. The previously reported drouthy conditions in the Gulf States have been largely relieved by rains, which have been very heavy in localities, while in some sections drouth continues, especially in Southern and Eastern Texas, and Southern Louisiana. Rains would prove of much benefit in the Ohio Valley and Middle Atlantic States, while portions of Wisconsin, Illinois, Iowa, Missouri and Arkansas have suffered from excessive rains. The weather continues seasonably cool on the North Pacific coast, where excessive moisture still retards farming operations. In Washington, however, the week has been the most favorable of the season.

CORN.—From the lower Missouri and Central Mississippi valleys eastward to the Middle Atlantic coast the week has not been favorable to corn, which is generally reported as backward and making slow growth. Excessive rains in portions of Nebraska, Iowa and Missouri will render much replanting necessary in those States. In Kansas the crop is in fine condition and it is decidedly improved in the East Gulf States, while in portions of the Central Gulf States and Southern Texas it is suffering for rain. The early-planted is maturing in Texas.

WINTER WHEAT.—The general condition of winter wheat in the States of the Ohio, Central Mississippi and Lower Missouri valleys is probably less favorable than in the previous week, considerable damage by rust and insects being reported. In Nebraska, Iowa, portions of Oklahoma and Arkansas, and in Pennsylvania and New York, some improvement is reported. In California early wheat promises a heavy crop, except in the southern portion of the State. In Oregon and Washington the crop has made good growth, a decided improvement being reported from the last-named State. Harvesting is in progress in some of the Southern States, with better yield in Texas, in some localities, than was expected.

SPRING WHEAT.—The week has been highly favorable for spring wheat in the Dakotas and Minnesota, and the crop is doing well in Nebraska and Iowa. Seeding on low land in Oregon has been delayed in consequence of excessive moisture.

OATS.—Oats harvest is in progress in the Southern States, with generally light yields. The crop is making slow growth in the Middle Atlantic States and the Upper Ohio Valley, and has suffered from too much rain in Missouri. In South Dakota, Nebraska, Minnesota and Iowa oats are doing well.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., June 2, 1899.

The volume of business transacted during the week does not compare favorably with the average of recent weeks, a result towards which the break occasioned by the holiday has contributed. Apart from that, however, the demand has shown a falling off in some lines of staple cottons, buyers finding their actions hampered by short supplies or following recent advances in prices conservatively. There is no greater disposition than before on the part of sellers to force business, and the tone continues very firm for all leading makes of both staple and fancy cottons. In the woolen goods there is a visible improvement in the general tone, together with more business passing and occasional advances of 5 per cent reported. Advices from various out-of-town points are encouraging. Warm weather has stimulated the consumptive demand for seasonable merchandise into activity, and retailers' and jobbers' stocks are being rapidly worked off. A case of yellow fever at New Orleans caused some anxiety in the early part of the week, but as it has not been followed by others, uneasiness has worn off. Southern markets are doing well. Collections continue satisfactory.

WOOLEN GOODS.—Advances of 5 per cent have been made in several lines of men's-wear worsteds in plain goods, such as serges, and in fancies, and the general tendency of the worsted goods division is towards a higher level of values. Stocks have been well depleted in many directions, and with continued improvement in the re-order demand, agents are getting well sold ahead. Woolen goods have been in better request than of late, but supplies are at least fair, and no change in prices noted. The advance in raw material, however, gives sellers more confidence in the future of prices, and stocks are not pressed upon the market. Kerseys are tending against buyers and overcoatings generally are firm. Business in cloakings is moderate at previous prices. Woolen and worsted dress goods are in moderate request and steady in price. The demand for flannels and blankets has been indifferent, but prices are maintained.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 29 were 1,984 packages, valued at $116,513, their destination being to the points specified in the tables below:

* From New England mill points direct.

The value of the New York exports for the year to date has been $6,434,959 in 1899, against $4,707,618 in 1898.

Ready supplies of heavy brown sheetings and drills do not increase, in spite of unusually large production, and considerable business is passed by on that account for both home trade and export. Prices are decidedly firm but not any higher on the week. Light weight brown and grey goods are also very firm, with small stocks on hand. Coarse, colored cottons, such as denims, ticks, plaids, etc., are in moderate request only, but as stocks are in good shape, prices are well maintained. The demand for bleached cottons has fallen off to some extent since the last advance in price but sellers are firm thereat; wide sheetings also firm. A moderate business has been done in ducks and osnaburgs at unchanged prices. A good demand is reported for new dark fancy calicoes. The opening prices of leading makes have yet to be named and the bulk of the orders is being placed at value. Agents are expected to name 5½c. per yard for the best makes. Light fancies are scarce. Staple lines such as indigo blues, Turkey reds, mournings, etc., are in steady request and firm. Ginghams are still in short supply and very firm for both staples and dress styles.

FOREIGN DRY GOODS.—Woolen and worsted dress goods in moderate request and firm in price. Silks are quiet with some irregularity. Ribbons also irregular. Linens quiet but prices firm. Men's-wear woolens and worsteds firm, but only small business reported.

MUNICIPAL BOND SALES IN MAY.

A review of the municipal bond market during the month of May presents no new conditions. The high prices that these securities have commanded for months past still prevail, and as the market continues comparatively bare of desirable securities, no immediate change in this respect appears likely.

Two States have this month placed bonds on the market—namely, New York and North Carolina. New York's $500,000 3½ per cent bonds sold on May 25 at a price netting the investor 2·826 per cent, as against 2·874 per cent the interest basis of a sale last November. North Carolina on May 22 sold $110,000 4 per cent bonds on a basis of 2·924 per cent, a much better rate than was quoted for that State's bonds on the Street. Other places have secured equally satisfactory prices for their bonds. Wayne County, Mich., on May 6 sold $700,000 3½ per cent 15-year bonds at 105·0152, a basis of 3·08 per cent. Marion County, Ind., sold $300,000 3½ per cent 1-30-year (serial) funding bonds on May 12 at 104·602, netting 3·123 per cent. Minneapolis, Minn., on May 11 sold $200,000 3½ per cent 30-year school bonds at 107·40, a price which nets the investor 3·119 per cent, and Chester's (Pa.) $180,000 3½ per cent 30-year bonds sold on May 25 for 108·14, at which rate the interest nets 3·083 per cent.

Probably the most interesting event of the month was the handing down by the State Supreme Court of Pennsylvania of the long-looked-for decision involving the validity of the proposed $11,200,000 loan of Philadelphia. The decision given on May 15 declares this loan valid. While it is not proposed to float the entire issue at one time, we may look forward in the near future to an issue of possibly several millions, as many of the contemplated improvements are immediate necessities.

Our usual monthly record shows that the total amount of municipal securities marketed during May was $7,869,442, not including $1,423,500 of temporary loans reported. This aggregate may be compared with $7,477,406 for April 1899 and $7,036,926 for May 1898.

The number of municipalities issuing bonds was 164 (emitting 184 separate issues), as against 150 and 186 for April 1899, and 142 and 163 for May 1898.

In the following table we give the prices which were paid for May loans to the amount of $6,782,674, issued by 139 municipalities. The aggregate of sales for which no price has been reported is $1,086,768, and the total bond sales for the month $7,869,442. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

Dallas County, Mo.—*Bond Agreement.*—We take the following item relative to the bond difficulties of Dallas County from the St. Louis "Republic:"

The railroad bond troubles in Dallas County, Mo., promise to be settled soon to the satisfaction of all concerned. The settlement includes the construction of a line of road from Lebanon across Dallas County 50 miles to Bolivar. A year ago the Des Moines Land & Improvement Company was organized. This company acquired, either directly or by option, the $235,000 of outstanding railroad bonds, which Dallas County has declined to pay. With interest the amount due exceeded $1,000,000. The company also secured the right of way and grade of a projected railroad from Lebanon to Bolivar. To-day it was announced the company had reached a settlement with the Commissioners of Dallas County. By its terms the company agrees to build the railroad and to abandon all claim to interest, and the county is to issue new bonds for $235,000. The proposition to issue bonds must, however, be submitted to a vote of the people. A special election will be ordered at once.

Minnesota.—*Supreme Court Ruling in Franchise Tax Cases.*—A special dispatch from St. Paul to the Duluth "Herald," dated April 26, 1899, contains the following with reference to a decision by Justice Mitchell in the Supreme Court on the question of the taxation of franchises of light and water, street-railway companies and other corporations rendering service to municipalities:

It (the decision) apparently covers the whole question as far as it is set forth by the provisions of the tax law of 1894. One provision of Section 1590 of that law is held to be unconstitutional. It provides for a deduction of the debts of a corporation from the value of its stock. The Court holds this to be unequal taxation, but says that the remainder of the section is not affected by the unconstitutionality of this provision.

The decision is rendered in the case of the State against the Duluth Gas & Water Company, the Hartman General Electric Company, Duluth Water & Light Company, West Duluth Electric Company and the Duluth Street Railway Company for taxes.

Another important feature in the decision is a ruling that the Duluth Street Railway Company is not a "railroad company" within the meaning of the gross earnings law, so it cannot be taxed upon its gross earnings.

It is held that the method provided for the reporting for taxation of the intangible property of corporations is by listing and assessing the entire capital stock at its market or actual value, less certain specified deductions. The provision for listing franchises as a distinct and separate class of personal property applies only to private parties or others not falling within the provisions of the section which provides for the taxation of corporate property as a whole.

The decision of the District Court for St. Louis County was modified in accordance with the above rulings.

Missouri.—*Legislature Adjourns.*—The State Legislature concluded its session on May 22, 1899.

Rhode Island.—*Legislature Adjourns.*—The State Legislature adjourned on May 26, 1899.

St. Augustine, Fla.—*Suit Indefinitely Postponed.*—The suit recently brought by W. C. Middleton and others to restrain the city from issuing the $20,000 electric-light plant bonds voted last March has been indefinitely postponed, as the State Legislature had passed in the meantime an Act legalizing the issuance of the bonds.

Texas.—*Legislature Adjourns.*—The State Legislature adjourned on May 27, 1899.

Bonds are issued pursuant to Section 871, Revised Statutes of Ohio. A certified check for 5% of the amount of bonds bids for must accompany proposals.

Westbrook, Maine.—*Bond Sale.*—In correction of current newspaper reports we printed a statement in the CHRONICLE of May 13 denying that this town had *recently* sold an issue of bonds. Our authority for this statement was the Treasurer, Mr. C. S. Eastman. The "Bond Buyer," a publication which we hold in much esteem, now reports Mr. Eastman as saying that $2,000 bonds *were* sold on February 1 last to the Westbrook Trust Co. As the authority is the same in each case, the explanation of these apparently contradictory statements no doubt is that Mr. Eastman in saying that no bonds had *recently* been sold did not mean to include a sale as far back as last February.

Bond Offering.—Proposals will be received until 11 A. M. June 10, 1899, by C. S. Eastman, City Treasurer, for $15,000

REVIEW OF MAY.

The Stock Exchange markets were subjected to a severe test during May, and experienced the most decided reaction which they have probably encountered since the upward movement began, over a year or more ago. The shares of the industrial properties were the prinpal sufferers, but the depression in them naturally affected adversely the rest of the market, besides which certain groups of railroad properties suffered from a drawback of their own, as we shall presently see.

The adverse developments began at the very opening of the month. The sudden collapse of the industrials in April had left public confidence in the values of these specialties considerably impaired, even though a good part of the loss in that month had in many cases been subsequently recovered. Such was the situation when on Monday, May 1, there came a striking combination of untoward announcements and happenings. First and foremost was the depressing influence exerted by the Ford Franchise Tax Bill. This bill had been passed the previous Friday (April 28th) at the very last moment, just before the Legislature adjourned, in response to Governor Roosevelt's urgent appeals. No one had apparently carefully studied the bill, and even the Governor, it would seem, was oblivious of the drastic nature of its provisions. The one thing which stood out clearly was that by aiming to treat franchises as real estate for purposes of taxation, the object was to compel local corporations to pay out enormous sums annually under the guise of taxing them.

All through the month this new piece of legislation exercised a most depressing influence upon prices. The Governor granted a hearing upon the bill, and was finally led, through the masterly arguments of ex-Gov. David B. Hill, to see its defects, if not its inequities and injustice. To remedy these defects he convened the Legislature in extraordinary session on May 22, and as a result a new bill was passed which became a law with the Governor's approval on May 26. This measure differs from the first one in that the power of assessing the franchises is placed in the State Board of Tax Commissioners instead of in the local authorities, and also that it allows certain deductions to be made for amounts that may have to be paid under other laws. The principle of the bill however remains, and thus all State corporations enjoying special franchises are subject to a new tax of uncertain amount.

We have said that this was injected as a depressing influence in the market the first day of the month. The effect was particularly disastrous in the case of the local traction stocks, like Brooklyn Rapid Transit and Metropoliton Street Railway. The decline had already partly begun the previous Saturday, the original Ford bill having been passed Friday, April 28th. From the high point of 135 for Rapid Transit Saturday, April 29, the stock dropped to 125 on Monday, May 1, and Metropolitan Street Railway from its high point of 247¾ on Saturday dropped to 230 on Monday. On this same day came the announcement of the breaking out of a war of rates between the local gas companies. The Consolidated Gas reduced its rates at one step from $1·10 to 65 cents per one thousand feet, and subsequently the rate was cut by some of the companies to 50 cents. As a consequence Consolidated Gas from its high point of 195 on Saturday fell to 176¼ on Monday and to 172 Tuesday May 2. This war also continued an adverse feature all through the month, and on the 26th the Board of Directors of the Consolidated Gas announced a reduction in the quarterly dividend from a basis of 8 per cent per annum to 6 per cent. On this last announcement the stock, which in the interval had made a considerable recovery, again suffered a severe break, dropping May 26 to 170¼, the lowest point of the year; May 27 it dropped to 168¼ and May 31 it touched 165½.

But there were other disturbing influences on the 1st of the month besides those mentioned. There was a sharp advance in foreign exchange, bring-

ing rates close to the gold-export point, with rumors that an outflow of the metal was sure to occur before the end of that week. There was never the slightest basis for this fear, though the fact that the $20,000,000 payment to Spain was about to be made, and that it was supposed the sterling exchange for the transfer of the money to the other side had not yet been provided, gave an air of plausibility to the rumor. On the same day also the money market again made a sudden upward spurt, the call-loan rate touching 7 per cent. Added to it all, the accounts regarding the growing winter-wheat crop were quite unfavorable, tending to depress certain groups of railroad properties. Nor was there in this last particular any improvement the rest of the month.

Altogether, as the result of these various occurrences, the stock market broke badly the first day of the month. A sharp recovery followed, but it continued weak and lower the whole of the first two weeks, and then it received a wholly unexpected shock which produced utter demoralization. Ex-Gov. Flower died suddenly Friday night, May 12, after an illness of only a few hours. Mr. Flower had been the head and front of the movement in the industrials, and his specialties, including one of the local traction stocks (Brooklyn Rapid Transit), had been more prominent and active than any others. It was at once recognized that his death, coming at such a juncture, was a serious event, and elaborate preparations were made to temper its ill effects. There were important conferences on the part of leading financial and market interests, and aid was offered Flower & Co. (which, however, was not needed and therefore declined), and large supporting orders were placed in certain stocks. Notwithstanding all this, the market during the two hours' business on Saturday (May 13) bordered on the verge of a panic. The stock sales reached 742,264 shares, the largest ever recorded for any Saturday half day, and the declines in all the properties with which Mr. Flower was prominently connected were enormous. Brooklyn Rapid Transit had closed Friday at 118¾, it sold down to 100 on Saturday; New York Air Brake had closed at 185 Friday, some sales were made Saturday at 125; People's Gas Light & Coke (Chicago Gas) dropped from 119 to 101; International Paper common from 49⅛ to 35; American Steel & Wire common from 65⅝ to 53½, and Federal Steel common from 61¼ to 50. All this was in addition to the previous extensive declines. The rest of the list did not suffer to the same extent, but was nevertheless seriously affected.

The following Monday the market seemed to have got back to normal conditions again, and for a few days it showed much steadiness and even strength at the lower range of prices. But later in the month renewed liquidation broke out all over the list, and outside the Flower specialties even lower prices were touched than those recorded on Saturday, the 13th, large numbers of stocks dropping to the lowest point of the year. Our comprehensive tables on subsequent pages will show the extent of these declines in each case. We can give here only a few instances to indicate how wide the range has been in special instances: American Smelting & Refining common sold at 35⅛ May 31 against 59 April 20; American Tin Plate common 33 May 24 against 52¾ April 4; Pressed Steel Car common 45 May 31 against 59½ April 13, and Union Bag and Paper 24¼ May 31 against 45 March 28th. In the railroad list the heaviest sufferers were the stocks of roads affected by the poor prospects of winter wheat, and particularly those in the Southwest, Missouri Pacific selling at 39 May 31, against 52½ April 4; though even a stock like Canada Southern recorded its lowest price of the year on the 31st.

It is noteworthy that the payment of the $20,000,000 indemnity to Spain was completed during the month without disturbance in either the foreign exchange or the money market. The payments were made in four warrants drawn upon the United States Treasury for $5,000,000 each. These warrants were received by M. Cambon, the French Ambassador, on behalf of Spain, on May 1. The first of them was delivered to the National City Bank on the 4th, the second and the third on the 8th, and the fourth on the 15th. The reason why the exchange market was not disturbed was that the bulk of the exchange to effect the transfer had been previously accummulated; when this fact became clearly established, the exchange market, which at first, as noted above, opened strong and higher, developed decided weakness; later, however, it advanced again, this being in turn followed by a decline and a subsequent recovery, the market remaining irregular, as will be apparent from the following showing the changes in the rates for actual business.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1899. They need no extended introduction, as they are self-explanatory. The tables embrace every security excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Price about January 3, 1899,*" were made on that date except those in italics, which are the nearest in January, 1899.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of May*. Of course the coupon, is there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant.

☞ **Notice Change.**—We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.
